SUPPLEMENTARY INFORMATION: The

has requested a temporary deviation in
order to perform necessary maintenance
on the rail joints of the Galveston
Causeway Railroad Bascule Bridge
across the Gulf Intracoastal Waterway,
mile 357.2 west of Harvey Locks, at
Galveston, Galveston County, Texas.
The maintenance is essential for the
continued safe operation of the railroad
bridge. This temporary deviation will
allow the bridge to remain in the closed-
to-navigation position from 7 a.m. until
noon, Monday through Thursday from
Monday, May 11, 2009 until
Wednesday, June 3, 2009. The bridge
will operate normally for the passage of
vessels on Memorial Day, Monday, May
27, 2009. During the closure the draw
will be able to open for emergencies
after securing the ties on the bridge.
Currently, the draw opens on signal for
the passage of vessels.

The bridge has a vertical clearance of
10 feet above mean high water in the
closed-to-navigation position.
Navigation at the site of the bridge
consists mainly of tows with barges and
some recreational pleasure craft. Due to
prior experience, as well as
coordination with waterway users, it
has been determined that this closure
will not have a significant effect on
these vessels. No alternate routes are
available. This closure is considered
necessary for repair of the bridge.

In accordance with 33 CFR 117.35(e),
the drawbridge must return to its regular
operating schedule immediately at the
end of the designated time period. This
deviation from the operating regulations
is authorized under 33 CFR 117.35.

Dated: April 13, 2009.
