[TA-W-64,431]

**Alyeska Pipeline Service Company, Anchorage, AK; Notice of Negative Determination Regarding Application for Reconsideration**

By application dated March 20, 2009, a company official requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA), applicable to workers and former workers of the subject firm. The denial notice was signed on January 26, 2009 and published in the **Federal Register** on February 23, 2009 (74 FR 8116).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The initial investigation resulted in a negative determination, which was based on the finding that imports of crude oil did not contribute importantly to worker separations at the subject facility and there was no shift of production to a foreign country. The subject firm did not import crude oil nor shift production of crude oil to a foreign country during the 2006, 2007 and January through October 2008 period.

The petitioner alleged that the subject firm had to automate their 30 year old manned facilities, in order to stay competitive with lower cost foreign crude oil production locations and reduce costs.

The initial investigation, in fact, revealed that automation of the facilities and technological improvements were the reason behind the worker separations at the subject firm.

The petitioner also alleged that foreign imports of crude oil have increased from 2003 through 2008, thus negatively impacting production of crude oil at the subject firm.

In order to establish import impact, the Department considers import numbers for the relevant period (one

year prior to the date of the petition). According to the data available from the United States Department of Energy, United States imports of crude oil have been decreasing absolutely and relatively to U.S. production of crude oil from 2006 to 2007 and further decreased from January through October 2008, when compared with the corresponding 2007 period.

The petitioner further alleges that job losses at the subject facility were also attributable to a shift in production of crude oil to foreign locations.

The investigation revealed that Alyeska Pipeline Service Company, Anchorage Pipeline Service Company did not shift production of crude oil from the subject facility to a foreign country during the relevant period.

The petitioner did not supply facts not previously considered; nor provide additional documentation indicating that there was either (1) a mistake in the determination of facts not previously considered or (2) a misinterpretation of facts or of the law justifying reconsideration of the initial determination.

After careful review of the request for reconsideration, the Department determines that 29 CFR 90.18(c) has not been met.

**Conclusion**

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed in Washington, DC, this 14th day of April 2009.

**Crosible, Inc., U.S. Division, Including Workers Whose Wages Are Reported Under the Federal Employer Identification Number for Madison Filter Inc., Now Known as Clear Edge Filtration, Moravia, NY; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification Regarding Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on September 12, 2007, applicable to workers and former workers of Crosible, Inc., U.S. Division, Moravia, New York. The notice was published in the **Federal Register** on September 27, 2007 (72 FR 54939). The certification was amended on February 9, 2009 to reflect the new name of the subject firm, Clear Edge Filtration. The notice was published in the **Federal Register** on February 23, 2009 (74 FR 8110-8111).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. Workers produce filters, made of fabric, used for air and water filtration systems.

New information provided shows that some of the workers at the subject firm have their Unemployment Insurance wages reported under the tax account for Madison Filter Inc.

The intent of the Department's certification is to include all workers of Crosible, Inc., who were adversely affected by a shift of filter production to Mexico. Consequently, the Department is again amending the certification to properly reflect this matter.

The amended notice applicable to TA-W-62,067 is hereby issued as follows:

"All workers of Crosible, Inc., U.S. Division, including workers whose wages are reported under the Federal Employer Identification Number for Madison Filter Inc., now known as Clear Edge Filtration, Moravia, New York, who became totally or partially separated from employment on or after August 27, 2006, through September 12, 2009, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed at Washington, DC, this 20th day of April 2009.

## NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2009-0155]

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

**SUMMARY:** The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 150, "Exemptions and Continued Regulatory Authority in Agreement States and in Offshore Waters under section 274."

2. *Current OMB approval number:* 3150-0032.

3. *How often the collection is required:* 10 CFR 150.16(b), 150.17(c), and 150.19(c) require the submission of reports following specified events, such as the theft or unlawful diversion of licensed radioactive material. The source material inventory reports required under 10 CFR 150.17(b) must be submitted annually by certain licensees.

4. *Who is required or asked to report:* Agreement State licensees authorized to possess source or special nuclear material at certain types of facilities, or at any one time and location in greater than specified amounts. In addition, persons engaging in activities in non-Agreement States, in areas of exclusive Federal jurisdiction within Agreement States, or in offshore waters.

5. *The number of annual respondents:* 15.

6. *The number of hours needed annually to complete the requirement or request:* 190 hours.

7. *Abstract:* 10 CFR part 150 provides certain exemptions from NRC regulations for persons in Agreement States. Part 150 also defines activities in Agreement States and in offshore waters over which NRC regulatory authority continues, including certain information collection requirements. The information is needed to permit NRC to make reports to other governments and the International Atomic Energy Agency in accordance with international agreements. The information is also used to carry out NRC's safeguards and inspection programs.

Submit, by June 29, 2009, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
