

ensure that highwalls, pits, and spoil banks are maintained in safe condition through the use of sound engineering design.

II. Desired Focus of Comments

MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the For Further Information Contact section of this notice, or viewed on the internet by accessing the MSHA home page (<http://www.msha.gov/>) and selecting "Rules & Regs", and then selecting "FedReg. Docs". On the next screen, select "Paperwork Reduction Act Supporting Statement" to view documents supporting the **Federal Register** Notice.

III. Current Actions

MSHA is seeking to continue the requirement for mine operators to submit ground control plans to ensure that highwalls, pits, and spoil banks are maintained in safe condition so that a safe working environment is provided for miners.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Ground Control Plan.

OMB Number: 1219-0026.

Recordkeeping: § 77.1000-1 states that the operator shall file a copy of the ground control plan and revisions with the Coal Mine Health and Safety District or Subdistrict office for the District or Subdistrict in which the mine is located and shall identify the name and location of the mine; the Mine Safety and Health Administration identification number if known; and the name and address of the mine operator.

Frequency: On Occasion.

Affected Public: Business or other for-profit.

Respondents: 925.

Reponses: 327.

Total Burden Hours: 2,841 hours.

Total Burden Cost (operating/maintaining): \$520.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated at Arlington, Virginia, this 24th day of April 2009.

John Rowlett,

Director of Management Services Division.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Mine Operator Dust Cards

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(3)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the extension of the information collection related to the 30 CFR Sections 70.209, 71.209, and 90.209—Mine Operator Dust Data Card; 70.201(c), 71.201(c), 90.201(c)—Reporting Operator Sampling Dates; 70.202(b), 71.202(b), and 90.202(b)—Dust Sampling Certification; 70.220(a), 71.220(a), and 90.220(a)—Reporting Status Changes; and 71.300, 71.301(d), 90.300, and 90.301(d)—Respirable Dust Control Plan.

DATES: Submit comments on or before June 29, 2009.

ADDRESSES: Send comments to, Debbie Ferraro, Management Services Division, 1100 Wilson Boulevard, Room 2141, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on computer disk, or via e-mail to Ferraro.Debbie@DOL.GOV. Ms. Ferraro can be reached at (202) 693-9821 (voice), or (202) 693-9801 (facsimile). Because of potential delays in receipt and processing of mail, respondents are strongly encouraged to submit comments electronically to ensure timely receipt. We cannot guarantee that comments mailed will be received before the comment closing date.

FOR FURTHER INFORMATION CONTACT: Contact the employee listed in the **ADDRESSES** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Background

30 CFR 70.201(c), 71.201(c), and 90.201(c), authorize the District Manager to require the mine operator to submit the dates(s) when sampling will begin. Only a certified person is allowed to conduct the respirable dust sampling required by these parts.

§§ 70.202(b), 71.202(b), and 90.202(b), require that the person must pass the MSHA examination on sampling of respirable coal mine dust.

§§ 70.220(a), 71.220(a), and 90.220(a), require the operator to report status changes to MSHA in writing within 3 working days after the status change has occurred.

§§ 70.209, 71.209, and 90.209, require persons who are certified by MSHA to take respirable dust samples to complete the dust data card that accompanies each sample being submitted for analysis.

§§ 71.300 and 90.300 require a coal mine operator to submit to MSHA for approval a written respirable dust control plan within 15 calendar days after the termination date of a citation for violation of the applicable dust standard.

§ 71.301(d) requires the respirable dust control plan to be posted on the mine bulletin board, however, 90.301(d) prohibits posting of the dust control plan for P-90 miners and, instead, requires a copy be provided to the affected P-90 miner.

II. Desired Focus of Comments

MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice, or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov/>) and selecting "Rules & Regs", and then selecting "FedReg. Docs". On the next screen, select "Paperwork Reduction Act Supporting Statement" to view documents supporting the **Federal Register** Notice.

III. Current Actions

The information provided by the mine operator on the dust data card that accompanies each dust sample, the reporting of when such samples will be collected to allow MSHA to observe the actual collection, and the reporting of any changes in operation status affecting sampling, are vital to effectively administer the operator sampling program. This allows MSHA to determine not only whether mine operators have complied with the sampling requirements stipulated in the regulations but also which operators were in noncompliance with the applicable dust standard. After processing, results are reported back to mine operators for posting on the mine bulletin board and viewing by miners. MSHA also uses this information to plan enforcement activities and evaluate programs.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Mine Operator Dust Cards.

OMB Number: 1219-0011.

Frequency: On occasion.

Affected Public: Business or other for-profit.

Respondents: 830.

Responses: 41,000.

Burden Hours: 33,199.

Total Burden Cost: \$2,989,000.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of

Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated at Arlington, Virginia, this 24th day of April 2009.

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-62,760]

Delphi Corporation Electronics and Safety Division Including On-Site Leased Workers From Acro Service Corporation, Manpower and Manpower Professional, Kokomo, IN; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on February 14, 2008, applicable to workers of Delphi Corporation, Electronics and Safety Division, Kokomo, Indiana. The notice was published in the **Federal Register** on February 29, 2008 (73 FR 11152). The certification was amended on October 16, 2008 to include on-site leased workers from Acro Service Corporation. The notice was published in the **Federal Register** on October 27, 2008 (73 FR 63733).

At the request of the petitioner, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of various types of automobile components, including: Heating, ventilating, air-conditioning systems (HVAC), amplifiers, mainboards, gas control modules, hybrid airmeter electronics, hybrid ignition electronics, pressure sensors, transmission control modules, crash sensing devices, occupant sensing devices, warning systems and semiconductors.

New information shows that leased workers of Manpower and Manpower Professional were employed on-site at the Kokomo, Indiana location of Delphi Corporation, Electronics and Safety Division. The Department has determined that these workers are

sufficiently under the control of Delphi Corporation, Electronics and Safety Division.

Based on these findings, the Department is amending this certification to include leased workers of Manpower and Manpower Professional working on-site at the Kokomo, Indiana location of the subject firm.

The intent of the Department's certification is to include all workers employed at Delphi Corporation, Electronics and Safety Division who were adversely affected by a shift in production in Mexico.

The amended notice applicable to TA-W-62,760 is hereby issued as follows:

All workers of Delphi Corporation, Electronics and Safety Division, including on-site leased workers from Acro Service Corporation, Manpower and Manpower Professional, Kokomo, Indiana, who became totally or partially separated from employment on or after January 28, 2007, through February 14, 2010, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC, this 14th day of April 2009.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.
