SUPPLEMENTARY INFORMATION:

A. Purpose

GSA's OCS currently provides service to citizens through the Internet at USA.gov, GobiernoUSA.gov and a family of consumer Web sites, through the phone at the National Contact Center 1-800-FED-INFO (1-800-333-4636), and through the distribution of print publications from the distribution center in Pueblo, CO. In addition, OCS communicates with the public through e-mail, an online blog at <http://www.govgab.gov> and online personal assistance.

Additional market research is needed on a continual basis to develop customer service strategies and determine the future directions for our multi-channel efforts at OCS and for those customer service activities in other government agencies. This is especially true in the current Web 2.0 environment where citizens, particularly in Generation X and Y, have different communication and collaboration styles and needs. Since citizens expect their government experience to be on par with those they have with the private sector, it is crucial to determine how best the government can serve citizens in a world with rapidly changing technologies. Surveys will include questions regarding communication channel preferences for how citizens contact government, service level expectations and interests in social media and Web 2.0 applications. OCS will share this information and collaborate with all government agencies that are working to improve citizen engagement and customer service.

OCS will work with a market research vendor that has an established panel of Americans who have agreed to take

surveys for various clients. Therefore, OCS will not be collecting or storing any personally identifiable information. The vendor will also provide support in: (a) The development of questions; (b) building, programming and disseminating the online surveys; and (c) analyzing the responses. OCS will work with the contractor to ensure that the citizens recruited and surveyed represent a statistically valid demographic cross section of the American public.

B. Annual Reporting Burden

Respondents: 3,500.

Responses per respondent: .25.

Annual Responses: 14,000.

Hours per response: .33.

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (VPR), 1800 F Street, NW., Room 4041, Washington, DC 20405, telephone (202) 501-4755. Please cite OMB Control No. 3090-00XX, Online Citizen Survey, in all correspondence.

Proposed Project: "Evaluate the Advancing Systems Improvements to Support Targets for Healthy People 2010 (ASIST2010) Program"—OMB No. 0990-NEW—Office on Women's Health.

Abstract: The Office on Women's Health is collecting data from 13 funded grantees and clients participating in ASIST2010, a three-year, cooperative agreement program. ASIST2010 uses a public health systems approach to improve performance on two or more of seven Healthy People 2010 (HP 2010) objectives that target women and/or men in six focus areas—cancer, diabetes, heart disease and stroke, access to quality health services, educational and community-based programs, nutrition and overweight, and physical activity and fitness. The goals of the ASIST2010 program are to: (1) Provide additional support to existing public health systems/collaborative partnerships to enable them to add a gender focus to HP 2010 objectives that track the health status of women and/or men, to help improve gender outcome in the targeted population and/or geographic area; (2) improve surveillance/information systems that allow tracking of program progress on HP 2010 objectives at the grantee level; and (3) develop and implement a plan to sustain the program after OWH funding ends. The sites participating in the ASIST2010 program represent four academic medical centers, three community-based organizations, two hospitals, two state health departments, one county health department, and one foundation.
