Notice of Availability of the Final Supplemental Environmental Impact Statement on Rock Mining in the Lake Belt Region of Miami-Dade County, FL (Lake Belt SEIS)

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers (USACE) is issuing this notice to advise the public that a Final Supplemental Environmental Impact Statement (Final SEIS) has been completed and is available for review and comment.

DATES: In accordance with the National Environmental Policy Act (NEPA), we have filed the Final EIS with the U.S. Environmental Protection Agency (EPA) for publication of their notice of availability in the **Federal Register**. The EPA notice officially starts the 30-day review period for this document. It is the goal of the USACE to have this notice published on the same date as the EPA notice. However, if that does not occur, the date of the EPA notice will determine the closing date for comments on the Final EIS. Comments on the Final EIS must be submitted to the address below under **FOR FURTHER INFORMATION CONTACT** and must be received no later than 5 p.m. Eastern Standard Time, Monday, June 8, 2009.

ADDRESSES: The Final EIS can be viewed online at <http://www.lakebeltseis.com/>. Copies of the Final EIS are also available

for review at the following libraries: Doral Branch, Miami-Dade County Public Library, 10785 NW. 58th Street, Doral Florida International Mall Branch, Miami-Dade County Public Library—10315 NW 12th Street, Miami, Florida 33172.

FOR FURTHER INFORMATION CONTACT: Ms. Leah Oberlin, Project Manager, U.S. Army Corps of Engineers, Jacksonville District, 4400 PGA Boulevard, Suite 500, Palm Beach Gardens, Florida 33410, Telephone: 561-472-3506, Fax: 561-626-6971.

SUPPLEMENTARY INFORMATION: The USACE is evaluating proposals to fill Waters of the United States in association with limestone mining and related activities in an area of Miami-Dade County known as the Lake Belt. The USACE has analyzed both offsite and onsite alternatives for those that could reasonably satisfy the project purpose, and has carried forward eight alternatives for mining for further detailed analysis along with a No-Action Alternative (Alternative 1). Under the No Action Alternative, mining in the Lake Belt area requiring Department of the Army (DA) permits would not be restarted and the USACE would not issue any additional DA permits for mining in the Lake Belt. Under the other alternatives, mining would be permitted in the Lake Belt area in varying degrees for varying lengths of time. The affected environment is primarily the area immediately surrounding the Lake Belt area in northern Miami-Dade County. Analyses indicate that the environmental impacts are closely tied to the number of acres proposed to be mined, with alternatives proposing the largest amount of mining having the largest environmental impacts for most of the areas of concern. The primary discriminators are: Natural cover types and wetlands, habitat units, potential impacts to endangered wood storks, hydrology, water quality, and socioeconomics. A mitigation plan has been evaluated that could offset many of the potential environmental impacts including seepage.

Dated: April 30, 2009.

Deputy Chief, Regulatory Division.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. Abstract: The National Center for Education Statistics (NCES) is requesting an amendment to its three-year clearance for the Integrated Postsecondary Education Data System (IPEDS) to run for the 2008-09, 2009-10, and 2010-2011 web-based data collections. Current authorization for IPEDS expires January 31, 2012 (OMB No. 1850-0582). The Higher Education Opportunity Act (HEOA), which became law on August 14, 2008, after OMB had already granted IPEDS a three-year clearance, has several implications for the IPEDS annual web-based data collection. The law requires the immediate implementation of several new institutional reporting requirements so that the data may be made available on the College Navigator website by August 2009. To meet these statutory deadlines, NCES requested two amendments to its clearance package from OMB, in order to meet the August 2009 deadline for several new requirements in the new law. First, a change memo was sent to OMB on August 19, 2008 (known as "Amendment 1"). It included a small number of non-substantive changes to the 2008-09 data collection based on the new requirements. OMB provided clearance for those changes in a notice on August 26, 2008. Then, NCES submitted a revised clearance package (known as "Amendment 2"). It included a limited number of additional substantive changes to spring cycle of the 2008-09 IPEDS web-based data collection. OMB provided clearance for those changes in a notice on January 16, 2009.

NCES now requests a third set of revisions to the Original Clearance Package to meet additional Higher Education Opportunity Act (HEOA) requirements for the collection of data related to net price in the 2009-10 and 2010-11 data collections (known hereafter as "Amendment 3"). These changes do not affect the 2008-09 data collection now underway. These changes will allow NCES to make available on the College Navigator website data on institutional net prices and a multi-year tuition calculator. In addition, we are including a set of changes to improve the data already collected in IPEDS that are based on suggestions from the postsecondary education data community and IPEDS Technical Review Panel. These changes
