

impose requirements on the 17 individuals consistent with the grandfathering provisions applied to drivers who participated in the Agency's vision waiver program.

Those requirements are found at 49 CFR 391.64(b) and include the following: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy in his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the certification when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

Discussion of Comments

FMCSA received two comments in this proceeding. The comments were considered and discussed below.

The two comments were submitted by the same anonymous individual who is of the opinion that the current Federal Vision standard should be changed and updated to relax the field of vision requirement. He also states that FMCSA has facts from the current Federal vision program and this information should be released.

In response to the these comments, Congress established a Medical Review Board (MRB) to provide FMCSA with advice and recommendations on medical standards and guidelines for the physical qualifications of CMV drivers [49 U.S.C. 31149(a)]. The Agency is currently evaluating the MRB's recommendations regarding the current vision standard; the opinions of medical research panels; and evidence reports related to vision.

Conclusion

Based upon its evaluation of the 17 exemption applications, FMCSA exempts, Dan B. Clark, Mark A. Cruz, Terry J. Dare, Frank A. DeWitt, Kenneth E. Flack, Jr., Maylin E. Frickey, Vincent E. Hardin, Larry M. Hawkins, Ronald R. Hunt, Michael E. Lafferty, Michael A. Mitchell, Eric E. Myers, Travis W. Neiwert, Michael G. Trueblood, Donald A. Uplinger, II., Steven M. Vujicic, and Joseph Watkins from the vision

requirement in 49 CFR 391.41(b)(10), subject to the requirements cited above (49 CFR 391.64(b)).

In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for 2 years unless revoked earlier by FMCSA. The exemption will be revoked if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

If the exemption is still effective at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.
