What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider when I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does this Apply to?

Affected entities: Entities potentially affected by this action are Delaware and New Jersey air pollution control agencies.

Title: Inclusion of Delaware and New Jersey in the Clean Air Interstate Rule.

ICR numbers: EPA ICR No. 2184.03, OMB Control No. 2060-0584.

ICR status: This ICR is currently scheduled to expire on July 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The United States (U.S.) Environmental Protection Agency (EPA) has a final Rule to add the States of Delaware and New Jersey to the States that are subject to the Clean Air Interstate Rule (CAIR) because of their PM_{2.5} impact on other States and to require that Delaware and New Jersey report all of the emissions related data required by CAIR. (Delaware and New Jersey are already affected by ozone-related requirements in CAIR.) These emissions data reporting requirements include new reporting requirements and combine these new requirements with existing requirements from the Consolidated Emissions Reporting Rule (CERR), the Emission Reporting Requirements for Ozone State Implementation Plan (SIP) Revisions Relating to Statewide Budgets for NO_x Emissions to Reduce Regional Transport of Ozone (NO_x SIP Call), the Acid Rain Program under Title IV of the CAA Amendments of 1990, and the Rule to Reduce Interstate Transport of Fine Particulate Matter and Ozone (Clean Air Interstate Rule, CAIR). Each of these four existing requirements has an approved ICR in place. The current ICRs are: for the CERR, ICR #0916.10 (OMB 2060-0088), for the NO_x SIP Call, ICR #1857.03 (OMB 2060-0445), for the Acid Rain Program, ICR #1633.13 (OMB 2060-0258), and for CAIR, ICR #2152.01 (OMB 2060-0570).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 741 hours per

response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 2.

Frequency of response: Varies by task.

Estimated total average number of responses for each respondent: 370.

Estimated total annual burden hours: 2,452 hours.

Estimated total annual costs: \$262,772.80. This includes an estimated burden cost of \$242,593.80 and an estimated cost of \$20,179.00 for capital investment or maintenance and operational costs.

What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: May 4, 2009.

Acting Director, Clean Air Markets Division, Office and Air and Radiation.
