SUPPLEMENTARY INFORMATION

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.* which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the USPTO. Individuals and businesses may also submit various communications to the USPTO, including letters of protest and requests to make special.

A letter of protest is an informal procedure whereby third parties who object to the registration of a mark in a pending application may submit evidence relevant to the registrability of the mark to the attention of the USPTO. A letter of protest should include an explanation of which application is being protested and relevant evidence to support the protest. A request to make special may be submitted where an applicant's prior registration was cancelled due to the inadvertent failure to file a post registration maintenance document and should include an explanation of why special action is appropriate. The USPTO is proposing to include these two items in the inventory at this time because of a new method of submission that would standardize some formatting involving the electronic collection of this information. Both of these items are covered under 15 U.S.C. 1051.

II. Method of Collection

In order to provide filers with many of the benefits of electronic filing for a submission where a true electronic form does not currently exist within the Trademark Electronic Application System (TEAS), the USPTO is creating a new form of submission in a "global" format. This new method of submission will allow the user to identify the type of document being filed by selecting from a drop-down list and then
