

Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., NTI-140, Washington, DC 20590, Telephone number (202) 366-9966; E-mail Drew.Dawson@dot.gov.

SUPPLEMENTARY INFORMATION: Section 10202 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Public Law 109-59, provided that the FICEMS consist of several officials from Federal agencies as well as a State emergency medical services director appointed by the Secretary of Transportation. SAFETEA-LU directed the Administrator of NHTSA, in cooperation with the Administrator of the Health Resources and Services Administration of the Department of Health and Human Services and the Director of the Preparedness Division, Directorate of Emergency Preparedness and Response of the Department of Homeland Security, to provide administrative support to the Interagency Committee, including scheduling meetings, setting agendas, keeping minutes and records, and producing reports.

This meeting of the FICEMS will focus on addressing the requirements of SAFETEA-LU and the opportunities for collaboration among the key Federal agencies involved in emergency medical services. The agenda will include:

- Reports from National Transportation Safety Board (NTSB)
 - Status Report on Helicopter Emergency Medical Services
 - Mexican Hat, UT Crash and Recommendations to FICEMS
- FICEMS Letter re National Health Security Strategy
- Health Care Reform—EMS integration
- Coordination with Council on Emergency Medical Care
- Reports and updates from Technical Working Group committees
- Reports, updates, recommendations from FICEMS members
- Report from National EMS Advisory Council (NEMSAC)

This meeting will be open to the public. Individuals wishing to register must provide their name, affiliation, phone number, and e-mail address to Drew Dawson by e-mail at Drew.Dawson@dot.gov or by telephone at (202) 366-9966 no later than May 26th, 2009. Pre-registration is necessary.

Minutes of the FICEMS Meeting will be available to the public online through the DOT Document Management System (DMS) at: <http://www.regulations.gov> under the docket number listed at the beginning of this notice.

Issued on: May 14, 2009.

Jeffrey P. Michael,

Associate Administrator for Research & Program Development.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Noise Exposure Map Notice; Nashua Municipal Airport, Nashua, NH

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps for Nashua Municipal Airport, as submitted by the Nashua Airport Authority under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96-193)

and 14 CFR Part 150, are in compliance with applicable requirements.

DATES: *Effective Date:* The effective date of the FAA's determination on the noise exposure maps is April 29, 2009.

FOR FURTHER INFORMATION CONTACT:

Richard Doucette, Federal Aviation Administration, New England Region, Airports Division, 12 New England Executive Park, Burlington, Massachusetts 01803.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Nashua Municipal Airport are in compliance with applicable requirements of Part 150, effective April 29, 2009.

Under Section 103 of Title I of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure maps that meet applicable regulations and that depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted such noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulation (FAR) Part 150, promulgated pursuant to Title I of the Act, may submit a noise compatibility program for FAA approval that sets forth the measures the operator has taken, or proposes, for the introduction of additional non-compatible uses.

The FAA has completed its review of the noise exposure map and related descriptions submitted by the Nashua Airport Authority. The specific maps under consideration were Figure 1. Existing (2009) Noise Exposure Map and Figure 2. Future (2014) Noise Exposure Map in the submission. The FAA has determined that these maps for Nashua Municipal Airport are in compliance with applicable requirements. This determination is effective on April 29, 2009.

FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of FAR Part 150. Such determination does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise

compatibility program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under Section 103 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of Section 107 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through FAA's review of a noise exposure map. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted the map or with those public agencies and planning agencies with which consultation is required under Section 103 of the Act. The FAA has relied on the certification by the airport operator, under Section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

Copies of the noise exposure maps and of the FAA's evaluation of the maps are available for examination at the following locations:

Nashua Airport Authority, Nashua Municipal Airport, Boire Field, 93 Perimeter Rd., Nashua, NH 03063 or: Federal Aviation Administration, New England Region, Airports Division, 12 New England Executive Park, Burlington, Massachusetts 01803.

Questions may be directed to the individual named above under the heading: **FOR FURTHER INFORMATION CONTACT.**

Issued in Burlington, Massachusetts on April 29, 2009.

LaVerne Reid,

Manager, Airports Division.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has

received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Wallowa Union Railroad; Waiver Petition Docket Number FRA-2004-18494

The Wallowa Union Railroad (WURR) of Wallowa, Oregon, has petitioned for a permanent waiver of compliance for one passenger car, WURR 1120, from the requirements of the Railroad Safety Glazing Standards, Title 49 CFR Part 223, which require certified glazing in all windows. The passenger car, WURR 1120, was built by Pullman Standard in 1947, and does not have glazing material that meets the provisions of Title 49 CFR Part 223.15 *Requirements for existing passenger cars* for certified glazing in the side facing windows. The excursion operations on WURR consist of trips ranging from five miles to sixty miles. Speeds are generally ten miles per hour (mph); however, there is a relatively straight section of track between milepost (MP) 57 and MP 83, where the maximum speed is 15 mph.

WURR is located in rural Northeastern Oregon, with very limited access to the line outside of the railroad itself. The largest town that the railroad runs through has a population of 2,020, and the county has a population of just over 7,000 people. The most frequently used public grade crossing has an ADT of 3,250.

WURR states that the line, for the most part, runs through pastures or river canyons. Only two miles of the sixty-three miles of track are located within the above mentioned town with the population of 2,020. WURR requests that due to the slow speed, the rural area of operations, no instances of vandalism from the time the original waiver was granted in 2004, and prohibitive cost to replace the side windows the certified glazing requirements be waived for the passenger car WURR 1120.

The railroad also requests passenger car WURR 1120, together with WURR 2636, which has the required certified glazing, and both built in 1947, continue to be classified as antiquated equipment that is used only for excursion purposes per 49 CFR 223.3(b)3.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since

the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (*e.g.*, Waiver Petition Docket Number FRA-2004-18494) and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue, SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://www.regulations.gov>.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78).

Issued in Washington, DC on May 13, 2009.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.
