to the two Department programs referenced above, the Commission seeks comments on how it should address requests for rate recovery that may be necessary for public utilities to qualify for awards under these programs. We also seek comment on whether some form of conditional approval could be useful to public utility applicants with respect to jurisdictional Smart Grid facilities. The Commission invites comments on whether the Commission, consistent with its obligations to ensure just and reasonable rates under the Federal Power Act (FPA), should adopt processes for public utilities that may apply for funding for jurisdictional Smart Grid facilities through the Department’s Smart Grid funding opportunities.
