

Notice of Intent to advise the public of changes to the logical termini for the Environmental Impact Statement that will be prepared to study improvements to State Route 15/State Route 57 to provide a four-lane facility beginning in the vicinity of the State Route 67/I-110 Interchange in Harrison County, Mississippi and terminating on State Route 15 north of Beaumont, Mississippi, a distance of approximately 61 miles. The original Notice of Intent for this project appeared in the July 17, 2008 **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Mr. Dickie Walters, Environmental Protection Specialist, Federal Highway Administration, 666 North Street, Suite 105, Jackson, MS 39202-3199, Telephone: (601) 965-4217. Contacts at the State and local level, respectively are: Mr. Claiborne Barnwell, Environmental/Location Division Engineer, Mississippi Department of Transportation, P.O. Box 1850, Jackson, MS 39215-1850, telephone: (601) 359-7920; and Mr. Steven Twedt, District 6 Engineer, Mississippi Department of Transportation, 6356 Highway 49 North, Hattiesburg, MS 39403-0551, telephone (601) 544-6511.

SUPPLEMENTARY INFORMATION: The FHWA, Mississippi Division Office will serve as the lead Federal agency for this project while the Mississippi Department of Transportation (MDOT) will serve as joint lead agency. The FHWA, in cooperation with MDOT, will prepare an Environmental Impact Statement (EIS) to study potential improvements to State Route 15/State Route 57 (SR 15/SR 57) in order to provide a four-lane facility. This approximately 61-mile long corridor has logical termini near the State Route 67/I-110 interchange in Harrison County and on State Route 15 north of Beaumont, MS in Perry County. The termini on the southern end of the project is a change from the original southern termini which began in the vicinity of Ramsey Springs, MS and was identified in the original Notice of Intent for this project which appeared in the July 17, 2008 **Federal Register**. The purpose of the EIS is to address the transportation, environmental, and safety issues of such a transportation corridor. The transportation facility will greatly enhance hurricane evacuation from the Mississippi Gulf, provide a new four-lane facility, and meet legislative intent. Alternatives under consideration include (1) taking no action and (2) build alternatives. The FHWA and MDOT are seeking input as a part of the scoping process to assist in determining and clarifying issues

relative to this project. Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, Native American tribes, private organizations and citizens who have previously expressed or are known to have interest in this proposal. Another formal scoping meeting with Federal, State, and local agencies, and other interested parties will be held in the near future. Public involvement meetings will be held during the EIS process. The draft EIS will be available for public and agency review and comment prior to the official public hearing. To ensure that the full range of issues related to this proposed action is addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

Dated: May 21, 2009.

Donald E. Davis,

Federal Highway Administration, Assistant Division Administrator, Mississippi Division, Jackson, Mississippi.

Federal Highway Administration

Notice of Final Federal Agency Action on Proposed Highway in Washington

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of limitation of claims for judicial review of actions by FHWA.

SUMMARY: This notice announces action taken by the FHWA that is final within the meaning of 23 U.S.C. 139(l)(1). This notice announces the availability of a Record of Decision (ROD) by FHWA pursuant to the requirements of the National Environmental Protection Policy Act of 1969 (NEPA), 42 U.S.C. 4321, as amended and the Council on Environmental Quality Regulations (40 CFR Parts 1500-1508). This action relates to a proposed project in King County Washington, the SE Issaquah Bypass Project.

DATES: By this notice, the FHWA is advising the public of a final agency action subject to 23 U.S.C. 771 and 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal Agency actions on the highway project will be barred unless the claim is filed on or before November 24, 2009. If the Federal law that authorizes that judicial review

of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: For FHWA: Ms. Sharon P. Love, Environmental Program Manager, Federal Highway Administration Washington Division, 711 S. Capitol Way Suite 501, Olympia, WA 98501; phone: (360) 753-9558; fax: (360) 753-9889; and e-mail: Sharon.Love@dot.gov. For the City of Issaquah: Mr. Bob Brock, PO Box 1307, Issaquah, WA 98027-1307; phone: (425) 837-3405; and e-mail: bobb@ci.issaquah.wa.us.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA has taken final agency action subject to 23 U.S.C. 139(l)(1) by issuing a Record of Decision (ROD) for the following highway project in the State of Washington: SE Issaquah Bypass, City of Issaquah, and King County. The Selected alternative is the no-build alternative.

The final environmental impact statement (FEIS) for the project was released January 4, 2008. At the time the FEIS was published, the Federal Highway Administration (FHWA), the Washington State Department of Transportation (WSDOT), and the city of Issaquah identified selected Modified Alternative 5 as the preferred course of action for building a new 1.9-kilometer (1.1-mile) four-lane principal arterial between Interstate 90 (I-90) and Front Street South in Issaquah, Washington. The proposed new arterial is commonly referred to as the Southeast Issaquah Bypass.

The Issaquah City Council passed a motion on February 4, 2008, Agenda Bill 5562, stating the "Issaquah City Council recommends that the Southeast Issaquah Bypass Alternative 7, the No-Action Alternative, be selected for the Record of Decision."

Out of seven alternatives considered in the final EIS (including the no-action alternative), Modified Alternative 5 was determined to be the most desirable in terms of balancing social and economic impacts, impacts on the natural environment, transportation system performance, and cost. While FHWA supported the preferred alternative identified in the FEIS, it selected the No-Build alternative in the ROD due to the City Council's decision.

The actions by FHWA, and the laws under which the action was taken, are described in the Final Environmental Impact Statement for the project approved on January 4, 2008, in the FHWA Record of Decision (ROD) issued on January 26, 2009, and in other project records. The FEIS, ROD, and other documents in the FHWA project

file are available by contacting the FHWA or the City of Issaquah at the addresses provided above. The FHWA ROD can be viewed and downloaded at http://www.ci.issaquah.wa.us/Files/Final_ROD_SEIssaquahBypass.pdf.
