DATES: Comments on the proposed information collection must be received by August 3, 2009, to be assured of consideration.

ADDRESSES: You may mail comments to: U.S. Department of the Interior, Bureau of Land Management, Mail Stop 401LS, 1849 C St., NW., Washington, DC 20240 (Attention: 1004-0025). You may also comment electronically at the following address: Jean_Sonneman@blm.gov.

FOR FURTHER INFORMATION CONTACT: You may contact Rick Deery, Solid Minerals Group, on (202) 452-0355 (Commercial or FTS). SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act (44 U.S.C. 3501-3521), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d) and 1320.12(a)). This notice identifies an information collection that the BLM will be submitting to OMB for approval.

This collection is contained in 43 CFR parts 3860 and 3870. The BLM will request a 3-year term of approval for this information collection activity. Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection

burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will accompany the BLM's submission of the information collection requests to OMB.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The following information is provided for the information collection: (1) Title of the information collection; (2) OMB control number; (3) summary of the information collection activity; and (4) frequency of collection, description of the respondents, estimated total annual responses, and the total annual reporting and recordkeeping burden for the collection of information.

Title: 43 CFR part 3860—Mineral Patent Applications and 43 CFR part 3870—Adverse Claims, Protests and Conflicts.

OMB Control Number: 1004–0025.

Summary: On its face, the General Mining Law (30 U.S.C. 29, 30, and 39) authorizes a holder of an unpatented claim for hardrock minerals to apply for fee title (patent) to the Federal land (as well as minerals) embraced in the claim. Since 1994, a rider on the annual appropriation bill for the Department of the Interior has prevented the BLM from processing mineral patent applications unless the applications were grandfathered under the initial legislation. This moratorium does not affect mineral surveys, contests, or protests to existing mineral patent applications. Therefore, this information collection continues to be necessary.

Frequency of Collection: Once.

Description of Respondents: Owners of unpatented mining claims and mill sites upon the public lands, and of reserved mineral lands of the United States, National Forests, and National Parks.

Total Annual Responses: 28 mineral survey applications. 3 protests or adverse claims.

Total Annual Burden Hours for Mineral Survey Applicants: 28.

Total Annual Burden Hours for Protests or Adverse Claims: 6.

Total Annual Burden for All Respondents: 34 hours.

Jean Sonneman,

Acting Information Collection Clearance Officer, Bureau of Land Management.

SUPPLEMENTARY INFORMATION:

Title: Individual Landholder's and Farm Operator's Certification and Reporting Forms for Acreage Limitation, 43 CFR part 426 and 43 CFR part 428.

Abstract: This information collection requires certain landholders (direct or indirect landowners or lessees) and farm operators to complete forms demonstrating their compliance with the acreage limitation provisions of Federal reclamation law. Responses are required to retain or obtain a benefit. These forms are submitted to districts that use the information to establish each landholder's status with respect to landownership limitations, full-cost pricing thresholds, lease requirements, and other provisions of Federal reclamation law. In addition, forms are submitted by certain farm operators to provide information concerning the services they provide and the nature of their farm operating arrangements. All landholders whose entire westwide landholdings total 40 acres or less are exempt from the requirement to submit RRA forms. Landholders who are "qualified recipients" have RRA forms submittal thresholds of 80 acres or 240 acres depending on the district's RRA forms submittal threshold category where the land is held. Only farm operators who provide multiple services to more than 960 acres held in trusts or by legal entities are required to submit forms.

Changes to the RRA Forms and the Instructions to Those Forms.

Minor editorial changes were made to the currently approved RRA forms and the instructions to those forms prior to the 60-day comment period initiated by the notice published in the **Federal Register** (73 FR 63509, Oct. 24, 2008). Those changes were designed to assist the respondents by increasing their understanding of the forms, clarifying the instructions for use when completing the forms, and clarifying the information that is required to be submitted to the districts with the forms. We received no public comments from the 60-day public comment period. The proposed revisions to the RRA forms will be included starting in the 2010 water year.

Frequency: Annually.

Respondents: Landholders and farm operators of certain lands in our projects, whose landholdings exceed specified RRA forms submittal thresholds.

Estimated Total Number of Respondents: 15,279.
