Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor

must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Southwestern Power Administration

White River Minimum Flows—Draft Addendum to Final Determination of Federal and Non-Federal Hydropower Impacts

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice of public review and comment.

SUMMARY: Southwestern Power Administration (Southwestern) has developed a draft addendum to its January 2009 Final Determination Report concerning the Federal and non-Federal hydropower impacts of the White River Minimum Flows project. The draft addendum documents proposed changes to Southwestern's final determination. The proposed changes include: (1) Accounting for the impacts that the increase in average pool elevation has on the operation of the Federal Bull Shoals and Norfolk projects, and (2) the inclusion of an additional discount rate source to be used by Southwestern in determination of the present value of the losses to both Federal projects and Federal Energy Regulatory Commission (FERC) Project No. 2221.

Assuming a January 1, 2011, date of implementation for the White River Minimum Flows project and current values for the specified parameters, Southwestern's modified final determination results in a present value of \$22,340,800 for the estimated future lifetime replacement costs of the electrical energy and capacity at FERC Project No. 2221. Southwestern's modified final determination results in a present value of \$60,851,800 for the estimated future lifetime replacement costs of the electrical energy and capacity for Federal hydropower.

DATES: The consultation and comment period will begin on the date of publication of this **Federal Register** notice and will end on July 8, 2009.

ADDRESSES: Written comments on Southwestern's draft addendum to its final determination should be submitted to George Robbins, Director, Division of Resources and Rates, Southwestern Power Administration, U.S. Department of Energy, One West Third Street, Tulsa, Oklahoma 74103, or e-mail george.robbs@swpa.gov. Comments will be accepted only on the proposed changes in the draft addendum and not on any other aspect of Southwestern's final determination.

FOR FURTHER INFORMATION CONTACT: Mr. George Robbins, Director, Division of Resources and Rates, Southwestern Power Administration, U.S. Department of Energy, One West Third Street, Tulsa, Oklahoma 74103, (918) 595–6680, george.robbs@swpa.gov.

SUPPLEMENTARY INFORMATION:

I. Discussion

Originally established by Secretarial Order No. 1865 dated August 31, 1943, as an agency of the U.S. Department of the Interior, Southwestern is now an agency within the U.S. Department of Energy which was created by an Act of the U.S. Congress, entitled the Department of Energy Organization Act, Public Law 95–91 (1977). Southwestern markets power from 24 multi-purpose reservoir projects with hydroelectric power facilities constructed and operated by the U.S. Army Corps of Engineers (Corps). These projects are located in the states of Arkansas, Missouri, Oklahoma, and Texas. Southwestern's marketing area includes these states plus Kansas and Louisiana.

Section 132 of Public Law 109–103 (2005) authorized and directed the Secretary of the Army to implement alternatives BS–3 and NF–7, as described in the Corps' White River Minimum Flows Reallocation Study Report, Arkansas and Missouri, dated July 2004. The law provides that the
