BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2009-0186]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

- The title of the information collection:* Policy Statement on Cooperation with States at Commercial Nuclear Power Plants and Other Production or Utilization Facilities;
- Current OMB approval number:* 3150-0163;
- How often the collection is required:* On occasion, when a State wishes to observe NRC inspections or perform inspections for NRC;
- Who is required or asked to report:* Those States interested in observing or performing inspections;
- The number of annual respondents:* 56 (50 for nuclear facility licensees + 6 for materials security licensees);
- The number of hours needed annually to complete the requirement or request:* 800 hours (approximately 10 hours per response);

7. *Abstract:* States wishing to enter into an agreement with NRC to observe or participate in NRC inspections at nuclear power facilities or conduct materials security inspections against NRC Orders are requested to provide certain information to the NRC to ensure close cooperation and consistency with the NRC inspection program, as specified by the Commission's Policy of Cooperation with States at Commercial Nuclear Power Plants and Other Nuclear Production or Utilization Facilities and Section 274i of the Atomic Energy Act, as amended.

Submit, by August 10, 2009, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2009-0186. You may submit your comments by any of the following methods. Electronic comments: Go to <http://www.regulations.gov> and search for Docket No. NRC-2009-0186. Mail comments to NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Questions about the information collection requirements may be directed to the NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-

415-6874, or by e-mail to INFOCOLLECTS.Resource@NRC.GOV.

Dated at Rockville, Maryland, this 4th day of June 2009.

For the Nuclear Regulatory Commission,

Tremaine Donnell,

Acting NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0042]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on March 23, 2009.

1. *Type of submission, new, revision, or extension:* Extension.
2. *The title of the information collection:* NRC Form 748, "National Source Tracking Transaction Report."
3. *Current OMB approval number:* 3150-0202.
4. *The form number if applicable:* NRC Form 748.
5. *How often the collection is required:* Initially, at completion of a transaction, and at inventory reconciliation.
6. *Who will be required or asked to report:* Licensees that manufacture, receive, transfer, disassemble, or dispose of nationally tracked sources.
7. *An estimate of the number of annual responses:* 1,350.
8. *The estimated number of annual respondents:* 1,350 (350 NRC Licensees + 1,000 Agreement State Licensees).
9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 412.
10. *Abstract:* In 2006, The NRC amended its regulations to implement a

National Source Tracking System for certain sealed sources. The amendments require licensees to report certain transactions involving nationally tracked sources to the National Source Tracking System. These transactions include manufacture, transfer, receipt, disassembly, or disposal of the nationally tracked source. This information collection is mandatory and is used to populate the National Source Tracking System.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by July 13, 2009. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

NRC Desk Officer, Office of Information and Regulatory Affairs (3150-0202), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

The NRC Clearance Officer is Gregory Trussell, (301) 415-6445.

Dated at Rockville, Maryland, this 5th day of June 2009.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0231; EA-09-131]

In the Matter of General Motors Corporation, Detroit, MI; Demand for Information

I

The Nuclear Regulatory Commission (NRC or Commission) is issuing this Demand for Information because it is our understanding that General Motors Corporation (GM) possesses radioactive material in the form of tritium in exit signs. Because GM possesses radioactive material in this form, it holds what is referred to as a "general license" to

possess such material. In this case, GM's general license has been issued by the NRC pursuant to section 31.5 in Part 10 of the Code of Federal Regulations (10 CFR 31.5). This general license authorizes GM, the licensee, to receive, possess, use, or transfer, in accordance with the provisions of paragraphs (b), (c) and (d) of 10 CFR 31.5, radioactive material contained in devices designed and manufactured for the purpose of producing light.

II

On December 7, 2006, NRC issued Regulatory Issue Summary (RIS) 2006-25, "Requirements for the Distribution and Possession of Tritium Exit Signs and the Requirements in 10 CFR 31.5 and 32.51a." This RIS was issued in part to remind general licensees of the requirements in 10 CFR 31.5 regarding transfer and disposal of tritium exit signs. It was NRC's intent that issuance of this RIS would minimize the chances of improper disposal of tritium exit signs.

Despite the publication of the RIS in 2006, NRC has reason to believe that certain general licensees may lack awareness of their responsibility to account for and properly dispose of tritium exit signs. Therefore, the NRC needs further information to determine whether we can have reasonable assurance that general licensees are complying with NRC regulations applying to the possession, transfer, and disposal of tritium exit signs.

III

Accordingly, pursuant to sections 161c, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.204 and 10 CFR 31.5, the NRC seeks information in order to determine whether additional regulatory action should be taken to ensure compliance with NRC requirements. Within 60 days of the date of this Demand for Information, GM must submit a written answer to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. GM's answer must be submitted under oath or affirmation, and it must provide the following information:

A. Explain how GM ensures compliance with the NRC requirements applying to the possession, transfer, and disposal of tritium exit signs GM has acquired. Identify and provide contact information for the individual GM has appointed who is responsible for ensuring day to day compliance with these requirements;

B. State the number of tritium exit signs GM currently possesses and the number of signs that, according to GM's records, should be in GM's possession.

C. Explain the reasons for any discrepancy between the number of tritium exit signs GM currently possesses and the number of signs that should be in GM's possession.

D. Describe any actions GM has taken or plans to take, to locate tritium exit signs that should be, but are not, in GM's possession.

E. Describe any actions GM has taken or plans to take, to prevent future losses of tritium exit signs.

After reviewing GM's response, the NRC will determine whether further action is necessary to ensure compliance with regulatory requirements.

The Director, Office of Federal and State Materials and Environmental Management Programs, may, in writing, relax or rescind any of the above conditions upon demonstration by the Licensee of good cause, such as a particularly large number of signs spread over multiple locations. If GM believes GM cannot report the results within the 60-day deadline, GM may forward a request to extend the deadline. Extensions will be granted if GM can reasonably demonstrate an inability to meet the deadline. Additionally, any other requirement can be relaxed or rescinded, as long as GM can reasonably demonstrate why that requirement should be relaxed or rescinded. Such requests may be emailed to MSEA@nrc.gov or faxed to Angela McIntosh at (301) 415-5955. Questions about this Demand for Information may be referred to Tritium Exit Sign Inventory Support at (301) 415-3340.

Send responses to: Director, Office of Federal and State Materials and Environmental Management Programs, Attention: Angela R. McIntosh, Mail Stop T8-E24, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Dated this 29 day of May 2009.

For the Nuclear Regulatory Commission.

Cynthia A. Carpenter,

Director, Office of Enforcement.
