

Asphalt Roofing Manufacturing (40 CFR part 63, subpart LLLLL) were proposed on January 10, 1989 and promulgated on November 20, 1990.

The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 63, subpart LLLLL.

Owners or operators of the affected facilities must submit a one-time-only of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 223 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Asphalt processing and asphalt roofing production facilities.

Estimated Number of Respondents: 24.

Frequency of Response: Initially, occasionally and semiannually.

Estimated Total Annual Hour Burden: 12,017.

Estimated Total Annual Cost: \$1,041,641, which includes \$1,016,234 in Labor costs, \$25,407 in O&M costs, and no annualized capital/startup costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. Apparent differences of less than 500 hours are attributable to rounding; in previous years, hours were rounded to the nearest thousand; this ICR presents more exact figures.

Dated: June 9, 2009.

Title: NESHAP for Benzene Waste Operations (Renewal).

ICR Numbers: EPA ICR Number 1541.09, OMB Control Number 2060-0183.

ICR Status: This ICR is schedule to expire on August 31, 2009. Under OMB regulations, the Agency may continue to

conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Benzene Waste Operations, 40 CFR part 61, subpart FF, were proposed on September 14, 1989 and promulgated on March 7, 1990.

These regulations apply to facilities that generate waste containing Benzene, such as chemical manufacturing plants, coke by-product recovery plants, petroleum refineries, and those owners and operators of hazardous waste treatment, storage, and disposal facilities (TSDF) which receive wastes from the above facilities, commencing construction, modification or reconstruction after the date of the proposal. This information is being collected to assure compliance with 40 CFR part 61, subpart FF.

The monitoring, recordkeeping, and reporting requirements outlined in these rules are similar to those required for other NESHAP regulations. Consistent with the NESHAP General Provisions (40 CFR part 63, subpart A), respondents are required to submit initial notifications conduct performance tests, and submit quarterly or semiannual reports, as applicable. They also are required to maintain records of applicability determinations; performance test results; exceedances; periods of startup, shutdown, or malfunction (SSM); monitoring records and all other information needed to determine compliance with the applicable standards.

Any owner or operator subject to the provisions of this subpart must maintain a file of these measurements, and retain the file for at least five years following the collection of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

An Agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA regulations listed in 40 CFR part 9 and 48 CFR chapter 15, are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information are estimated to average 71 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information to or for a Federal agency. This includes the time needed to review instructions, develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Benzene waste operations.

Estimated Number of Respondents: 270.

Frequency of Response: On occasion, initially, quarterly and semiannually.

Estimated Total Annual Hour Burden: 19,148.

Estimated Total Annual Cost: \$1,738,751 in Labor costs exclusively. There are neither capital/startup nor operation and maintenance (O&M) costs associated with this ICR.

Changes in the Estimates: There is an adjustment in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The increase in the number of sources from 234 to 270 was due to a thorough research of the industry and the data obtained from the trade associations and environmental consultant, which resulted in a more accurate count of the affected facilities. This increase was not due to new or reconstructed facilities. This ICR also reflects the most recent hourly labor rates which take into account the managerial, technical and clerical burdens as compared to the previous ICR.

Dated: June 9, 2009.

Title: EPA Worker Protection Standards for Hazardous Waste Operation and Emergency Response (Renewal).

ICR numbers: EPA ICR No. 1426.08, OMB Control No. 2050-0105.

ICR Status: This ICR is scheduled to expire on June 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 126(f) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) requires EPA to set worker protection standards for State and local employees engaged in hazardous waste operations and emergency response in the 27 States that do not have Occupational Safety and Health Administration approved State plans. The EPA coverage, required to be identical to the OSHA standards, extends to three categories of employees: those engaged in clean-ups at uncontrolled hazardous waste sites, including corrective actions at Treatment, Storage and Disposal (TSD) facilities regulated under the Resource Conservation and Recovery Act (RCRA); employees working at routine hazardous waste operations at RCRA TSD facilities, and employees involved in emergency response operations without regard to location. This ICR renews existing mandatory record keeping collection of ongoing activities including monitoring of any potential employee exposure at uncontrolled hazardous waste sites, maintaining records of employee training, refresher training, medical exams and reviewing emergency response plans.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 12 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local governments in the 27 States and 2 territories that do not have OSHA-approved plans under section 18(b) of the OSH Act.

Estimated Number of Respondents: 25,052.

Frequency of Response: Once, Annually, On Occasion.

Estimated Total Annual Hour Burden: 311,680.
