Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in California

AGENCY: Federal Highway Administration (FHWA), U.S. DOT.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and other Federal agencies: Shasta-Trinity National Forest (Forest Service), and U.S. Bureau of Reclamation, Mid-Pacific Region (Bureau of Reclamation).

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(J)(1). These actions relate to a proposed highway project, replacement of the Antlers Bridge (Bridge No. 06-0089) and realignment of a 0.42-mile segment of Interstate 5, in the County of Shasta, State of California. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(J)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before December 16, 2009. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions subject to 23 U.S.C. 139(J)(1) by issuing licenses, permits, and approvals for the following highway project in the State of California: Replacement of the Antlers Bridge (Bridge No. 06-0089) and realignment of a 0.42-mile segment of Interstate 5, in Shasta County, near the community of Lakehead. The existing steel truss bridge was constructed in 1941 and exhibits signs of structural fatigue. Additionally, the section of highway abutting the south end of the bridge includes a series of curves and has an accident rate higher than average for similar highways statewide. The proposed project entails construction of a new bridge on an alignment immediately east of the existing bridge. The existing bridge will be removed once the new bridge is operational. A 0.42-mile section of highway south of the bridge will be reconstructed to improve the alignment. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Assessment (EA) for the project, approved on September 29, 2006, in the FHWA Finding of No
