This information was previously collected on either the old Federal Protective Service 176 Form or the SF85P. This is a request to replace the form with the GSA Form 176. The new GSA form will be less of a public burden.

Please Note: The original request to review and approve the new information collection requirement regarding the collection of personal data for background check investigations was for both temporary contractors and child care workers accessing GSA owned and leased controlled facilities. However, through discussions with OMB a more streamlined process will be developed for conducting background checks on temporary contractors. GSA is therefore pulling the request for review and approval of the collection of personal data for background check investigations of temporary contractors, form GSA 176T, presented in the Federal Register publication of February 17, 2009, 74 FR 7439. GSA is proceeding with the request for review and approval for background check investigations of child care workers, form GSA 176C—to be referred to as form GSA 176, Background Check Investigations for Child Care Workers.
