AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service is proposing to authorize reasonable access for site-specific proposals to develop reserved and outstanding mineral rights within the Allegheny National Forest, with provisions to mitigate impacts to surface resources. We are also proposing to use design criteria and a site-specific review process through this decision to authorize reasonable access for future site-specific proposals to develop reserved and outstanding mineral rights within the Allegheny National Forest, with provisions to mitigate impacts to surface resources.

DATES: Comments concerning the scope of the analysis must be received by August 21, 2009. The draft environmental impact statement is expected January 2010, and the final environmental impact statement is expected April 2010.

ADDRESSES: Send written comments to Anthony V. Scardina, Allegheny National Forest, 4 Farm Colony Drive, Warren, PA 16365. SUPPLEMENTARY INFORMATION: The Allegheny National Forest consists largely of land acquired from the private sector via purchase or donation. At the time of acquisition, ownership of oil and gas resources had often been conveyed to other private parties ("outstanding rights"), or reserved by the private seller or donor ("reserved rights"). As a result, ninety-three percent of the Forest is subject to outstanding or reserved oil and gas rights.

On April 9, 2009, the Forest Service, Forest Service Employees for Environmental Ethics (FSEEE), Allegheny Defense Project, and the Sierra Club filed a stipulation of dismissal, based upon a settlement agreement, with the U.S. District Court for the Western District of Pennsylvania (*FSEEE et al. v. Forest Service*, 08-323 (W.D. Pa.)). This lawsuit challenged the issuance of Notices to Proceed for development of reserved and outstanding mineral rights within the Allegheny National Forest without preparation of environmental analyses pursuant to the National Environmental Policy Act (NEPA) of 1969. The lawsuit was dismissed in May 2009.

Briefly, the settlement filed with the court included the processing of 54 oil and gas proposals for a total of 588 wells, 2 pipelines, and 1 seismic line using current review and approval procedures. Furthermore, the settlement established that the appropriate level of NEPA be conducted prior to authorization of future proposals.

The Allegheny National Forest is also in the process of preparing a supplemental environmental impact statement for the 2007 Forest Plan. This process responds to instructions in the February 15, 2008, decision by the Chief of the Forest Service on appeals of the Allegheny National Forest Revised Land and Resource Management Plan pertaining to design criteria associated with the development of reserved and outstanding mineral rights within the Allegheny National Forest. Information for this process can be found at <http://www.fs.fed.us/r9/forests/allegheny/> and by clicking on the link for the ANF 2007 Forest Plan Supplemental EIS.
