### Administration for Children and Families

#### Submission for OMB Review; Comment Request

*Title:* National Survey of Child and  
Adolescent Well-Being Second Cohort  
(NSCAW II).

*OMB No.:* 0970-0202.

*Description:* The Department of  
Health and Human Services (HHS)  
intends to collect follow-up data on a  
sample of children and families for the  
National Survey of Child and  
Adolescent Well-Being (NSCAW). The  
NSCAW was authorized under Section  
427 of the Personal Responsibility and  
Work Opportunities Reconciliation Act  
of 1996. The NSCAW is the only source  
of nationally representative, firsthand  
information about the functioning and  
well-being, service needs, and service  
utilization of children and families who  
come to the attention of the child

welfare system. Information is collected  
about children's cognitive, social,  
emotional, behavioral, and adaptive  
functioning, as well as family and  
community factors that are likely to  
influence their functioning. Family  
service needs and service utilization  
also are addressed in the data collection.

Selection of the current NSCAW  
sample and baseline data collection  
began in 2007 with a final anticipated  
sample size of 5,700 children. The  
proposed data collection will allow for  
follow-up of this sample 18 months  
post-baseline, and will follow the same  
format as that used in the baseline  
round and will employ, with only  
modest revisions, the same instruments  
that were used in the previous round.  
Data from NSCAW are made available to  
the research community through  
licensing arrangements from the  
National Data Archive on Child Abuse  
and Neglect at Cornell University.

*Respondents:* Children and their  
associated permanent or foster  
caregivers, caseworkers, and teachers.

### Administration for Children and Families

#### Proposed Information Collection Activity; Comment Request

*Title:* Cross-Site Evaluation of the  
Children's Bureau Grantee.

*Cluster:* Supporting Evidence-Based  
Home Visiting Programs to Prevent  
Child Maltreatment (EBHV).

*OMB No.:* New Collection.

*Description:* The Administration for  
Children and Families (ACF), U.S.  
Department of Health and Human  
Services (HHS), is proposing this cross-  
site evaluation data collection activity to  
identify successful strategies for  
adopting, implementing, and sustaining  
high-quality home visitation programs

to prevent child maltreatment. An  
evaluation study will address four  
domains: (1) Systems change to develop  
infrastructure, (2) fidelity to home  
visiting models, (3) costs, and (4) family  
and child outcomes (via a review of  
grantee analysis reports). A process  
study will focus on the broader grant  
initiative to understand how programs  
plan and develop the infrastructure  
needed to support home visitation  
services and how programs ensure  
service quality.

Information will be collected through  
biennial site visits, semi-annual  
progress reports, and monthly entries  
into a web-based data system. Site visits  
will include interviews with key grantee  
staff and stakeholders involved in the  
execution of the grant and in the efforts  
to make system changes. Progress report  
cross-site evaluation data will capture  
the costs of home visiting and provide  
additional information on systems  
change. Web-based data entry will  
include EBHV program and participant  
characteristics along with systems  
change updates on goals and operations  
every six months. Additionally, cross-
