

1168). A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before August 24, 2009.

ADDRESSES: Mr. Steven D. Lawrence, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0292, fax (202) 693-1451, e-mail Lawrence.Steven@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) is the agency responsible for administration of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.*, the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*, and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 *et seq.* These statutes require OWCP to pay for appropriate medical and vocational rehabilitation services provided to beneficiaries. In order for OWCP's billing contractor to pay providers of these services with its automated bill processing system, providers must "enroll" with one or more of the OWCP programs that administer the statutes by submitting certain profile information, including identifying information, tax I.D. information, and whether they possess specialty or sub-specialty training. Form OWCP-1168 is used to obtain this information from each provider.

If this information is not obtained before the provider submits his or her first bill for payment, the bill payment process is substantially prolonged and increases the burden on providers. This information collection is currently approved for use through January 31, 2010.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks the approval of the extension of this information collection in order to carry out a wide range of automated bill "edits", such as the identification of duplicate billings, the application of pertinent fee schedules, utilization review, and fraud and abuse detection. The profile information is also used to furnish detailed reports to providers on the status of previously submitted bills.

Type of Review: Extension.

Agency: Employment Standards Administration.

Title: Provider Enrollment Form (OWCP-1168).

OMB Number: 1215-0137.

Agency Numbers: OWCP-1168.

Affected Public: Business or other for-profit.

Total Respondents: 70,185.

Total Annual Responses: 70,185.

Estimated Total Burden Hours: 9,335.

Estimated Time per Response: 8 minutes.

Frequency: On occasion.

Total Burden Cost (Capital/Startup): \$0.

Total Burden Cost (Operating/Maintenance): \$32,987.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: June 18, 2009.

Steven D. Lawrence,

Acting Chief, Branch of Management Review and Internal Control, Division of Financial Management, Office of Management, Administration and Planning, Employment Standards Administration.

DEPARTMENT OF LABOR

Office of Workers' Compensation Programs

Energy Employees Occupational Illness Compensation Program Act of 2000, as amended

AGENCY: Office of Workers' Compensation Programs, Employment Standards Administration, Labor.

ACTION: Notice of revision of listing of covered Department of Energy facilities.

SUMMARY: The Office of Workers' Compensation Programs (OWCP) is publishing a list of Department of Energy (DOE) facilities covered under the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended (EEOICPA). This notice revises the listing of DOE facilities that was included as part of the list of covered facilities last published by DOE on August 23, 2004 (69 FR 51825) to include the determinations made by OWCP on this subject through June 23, 2009.

FOR FURTHER INFORMATION CONTACT: Shelby Hallmark, Director, Office of Workers' Compensation Programs, Employment Standards Administration, U.S. Department of Labor, Room S-3524, 200 Constitution Avenue, NW., Washington, DC 20210. Telephone: 202-693-0031 (this is not a toll-free number).

ADDRESSES: OWCP welcomes comments regarding this list. Individuals who wish to suggest changes to this list may provide information to OWCP at the following address: Division of Energy Employees Occupational Illness Compensation, Office of Workers' Compensation Programs, Employment Standards Administration, U.S. Department of Labor, Room C-3321, 200 Constitution Avenue, NW., Washington, DC 20210. You may also suggest changes to this list by e-mail at DEEOIC-Public@dol.gov. You should include "DOE facilities list" in the subject line of any e-mail containing comments on this list.

SUPPLEMENTARY INFORMATION:

I. Background

The Energy Employees Occupational Illness Compensation Program Act of 2000, as amended (42 U.S.C. 7384 *et seq.*), was originally enacted on October 30, 2000. Primary responsibility for administration of EEOICPA was assigned to the Department of Labor (DOL) by Executive Order 13179 ("Providing Compensation to America's Nuclear Weapons Workers") of December 7, 2000 (65 FR 77487). In

section 2(c)(vii) of that Order, DOE was directed to “publish in the **Federal Register** a list of atomic weapons employer facilities within the meaning of section [7384l(5)] of the Act, Department of Energy employer facilities within the meaning of section [7384l(12)] of the Act, and a list of facilities owned and operated by a beryllium vendor, within the meaning of section [7384l(6)] of the Act.” Pursuant to this direction, DOE initially published a list of all three types of facilities covered under EEOICPA on January 17, 2001 (66 FR 4003), and subsequently revised and republished the entire list on June 11, 2001 (66 FR 31218), December 27, 2002 (67 FR 79068), July 21, 2003 (68 FR 43095), and August 23, 2004 (69 FR 51825). In notices published on November 30, 2005 (70 FR 71815), June 28, 2007 (72 FR 35448) and April 9, 2009 (74 FR 16191), DOE further revised the list by formally removing a total of ten atomic weapons employer facilities from it without republishing the list in its entirety.

Following the amendments to EEOICPA that were enacted as subtitle E of Title XXXI of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005, Public Law 108–375, 118 Stat. 1811, 2178 (October 28, 2004), DOL promulgated interim final and final regulations governing its expanded responsibilities under EEOICPA on June 8, 2005 (70 FR 33590) and December 29, 2006 (71 FR 78520). One of these regulations, 20 CFR 30.5(x)(2), indicates that DOL has adopted the list of DOE facilities that was published by DOE on August 23, 2004, and notes that “DOL will periodically update this list as it deems appropriate in its sole discretion by publishing a revised list of covered [DOE] facilities in the **Federal Register**.” In making these updates, 30.5(x)(1) specifies that the Director of OWCP is responsible for determining whether or not a particular work site under consideration meets the definition of a *Department of Energy facility*. This sole responsibility is derived from the grant of primary authority to DOL to administer the EEOICPA claims process contained in section 2(a)(i) of Executive Order 13179.

II. Purpose

Since DOE last published a list of all three types of facilities covered under EEOICPA in the **Federal Register** on August 23, 2004, the Director of OWCP has made a number of determinations regarding the status of work sites in connection with claims filed under EEOICPA. Those determinations are described in this **SUPPLEMENTARY**

INFORMATION and are memorialized in the lists that follow. Six new sites have been added to the lists of DOE facilities published today: Two in New Mexico, two in Tennessee, one in Utah and one in Massachusetts. The two added in New Mexico are the Kirtland Operations Office at Kirtland Air Force Base (AFB) in Albuquerque, and Hangar 481 at Kirtland AFB. The two added in Tennessee are the former Clinton Engineer Works in Oak Ridge and the Office of Scientific and Technical Information also in Oak Ridge, the one added in Utah is the Uranium Mill in Moab, and the one added in Massachusetts is the former Hood Building in Cambridge.

OWCP’s research has also led it to rename or otherwise modify the designation of a few work sites that were previously included by DOE in its **Federal Register** lists. The Huntington Pilot Plant in Huntington, West Virginia now appears in these lists as the Reduction Pilot Plant; however, only the name of this facility has changed. Second, the Energy Technology Engineering Center (ETEC), a facility with multiple locations in both Los Angeles and Ventura Counties, California has been divided into separate contiguous facilities and appears in the lists published today as the following four facilities—Area IV of the Santa Susana Field Laboratory in Ventura County; and the Canoga Complex, the De Soto Complex and the Downey Facility in Los Angeles County. Third, OWCP has determined that four of the five buildings (Buildings 30, 31, 37 and 38, but not 14) known collectively as the Linde Ceramics Plant in Tonawanda, New York, which were previously designated by DOE as an Atomic Weapons Employer (AWE) facility, actually constitute their own separate DOE facility. Fourth, OWCP has determined that Atomics International in Los Angeles County, California will no longer be considered to be a DOE facility; this action has no effect on the site’s status as a statutory Beryllium Vendor facility. And finally, OWCP has determined that the previous DOE facility known as Gilman Hall, University of California in Berkeley, California, will no longer be considered a DOE facility because the University of California is the managing and operating contractor for the Lawrence Berkeley National Laboratory rather than a work site.

By incorporating these changes into the two lists found below, OWCP is presenting the public with the most current listing of DOE facilities in order to assist potential claimants and their families. OWCP is continuing its

research efforts in this area, and further revisions of these lists should be expected. While DOE maintains a Web site (<http://www.hss.energy.gov/healthsafety/fwsp/advocacy/faclist/findfacility.cfm>) that provides information on AWE facilities, Beryllium Vendor facilities and DOE facilities to the public, the information on that Web site regarding DOE facilities should not be relied upon as it may not be up to date, nor is it binding on OWCP in its adjudication of any claims filed under EEOICPA. Instead, OWCP is solely authorized to give the public notice of determinations regarding DOE facilities.

III. Introduction to the Lists

The five complete lists previously published by DOE included all three types of work sites described in Executive Order 13179, *i.e.*, AWE facilities, Beryllium Vendor facilities, and DOE facilities. The lists published today by OWCP, however, only include work sites that meet the statutory definition of a *Department of Energy facility* found at section 7384l(12) of EEOICPA, because the authority to designate AWE facilities and Beryllium Vendor facilities has been granted to DOE, not DOL, pursuant to section 7384l(4)(B) of EEOICPA and section 2(c)(iv) of Executive Order 13179. However, since some work sites can meet the definition of more than one type of covered work site during either consecutive or concurrent time periods, simply presenting one list of DOE facilities (without also differentiating among them in some easily understood fashion) could lead the reader to wrongly conclude that a work site has always been a DOE facility when, in fact, it only had that status during a brief period. To lessen the potential for this type of misunderstanding, OWCP has decided to present two separate lists of DOE facilities.

The first list consists exclusively of work sites that have only been DOE facilities for purposes of coverage under EEOICPA, and the second list consists of work sites that have also been at least one other type of covered work site in addition to a DOE facility. To see what other types of covered work sites the DOE facilities appearing in the second list are or have been, readers can refer to the **Federal Register** notices published by DOE on August 23, 2004 (69 FR 51825), November 30, 2005 (70 FR 71815), June 28, 2007 (72 FR 35448) and April 9, 2009 (74 FR 16191). Because coverage under EEOICPA for DOE facilities is limited to periods during which “operations” were performed by or on behalf of DOE (or its

predecessor agencies), and when DOE either had a proprietary interest in the site or had entered into a particular type of contract with an entity at the site, the lists below include date ranges during which covered employment at each site could have been performed. These date ranges, however, are not considered binding on OWCP in its adjudication of individual claims under EEOICPA and

are presented in this notice for the sole purpose of informing the public of the current results of OWCP's research into the operational histories of these work sites, some of which extend back to the establishment of the Manhattan Engineer District of the U.S. Army Corps of Engineers on August 13, 1942. OWCP's research efforts in this area are continuing, and it expects that the date

ranges currently included in this notice will change with the publication of future notices. DOE facilities appearing on the lists that have undergone environmental remediation at the direction of or directly by DOE are identified by the following symbol—†— after the date range during with such environmental remediation occurred.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (09–056)]

Notice of Information Collection Under OMB Review

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection under OMB review.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 30 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Jasmeet Seehra, Desk Officer for NASA; Office of Information and Regulatory Affairs; Room 10236; New Executive Office Building; Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection

instrument(s) and instructions should be directed to Dr. Walter Kit, NASA Clearance Officer, NASA Headquarters, 300 E Street SW., JF0000, Washington, DC 20546, (202) 358–1350, *Walter.Kit-1@nasa.gov*.

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection is required by NASA FAR Supplement clause 1852.219–85 and supports recertification of eligibility of compliance with SBIR/STTR program requirements.

II. Method of Collection

The SBIR/STTR contractor may submit the required recertification electronically, unless the cognizant NASA Contracting Officer requirements the recertification to be submitted via hard copy. Approximately 50% of the responses are collected electronically.

III. Data

Title: SBIR/STTR Contractor Recertification.

OMB Number: 2700–0124.

Type of Review: Revision of currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 423.

Estimated Time Per Response: 0.50 hr.

Estimated Total Annual Burden

Hours: 212.

Estimated Total Annual Cost: \$0.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has

practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Walter Kit,

NASA Clearance Officer.
