SUPPLEMENTARY INFORMATION:

What Action Is EPA Taking?

A. Background

NetDMR will, for the first time, provide a national tool for regulated Clean Water Act permittees to submit and sign Discharge Monitoring Reports (DMRs) electronically via a secure Internet application to U.S. EPA through the Environmental Information Exchange Network. The transition from paper to electronic reporting significantly reduces the burden on States, Tribes, Territories, and the regulated community. NetDMR is consistent with the standards in the Cross-Media Electronic Reporting Regulation (CROMERR) § 3.2000, including the § 3.2000(b)(5) standards for electronic signatures and identify-proofing for "priority reports." An essential component of NetDMR is the exchange of data with EPA's Integrated Compliance Information System, which allows permittees to complete a DMR that is specific to their permit limits and outfalls.

B. Today's Action

On June 22, 2009, EPA Region 1 (New Hampshire and Massachusetts), EPA Region 3 (District of Columbia), EPA Region 6 (Gulf of Mexico), Utah and Louisiana will begin utilizing NetDMR.

C. How Can I Get Other Related Information?

Additional information on NetDMR can also be found at <http://www.epa.gov/netdmr>.

Science Advisory Board Staff Office; Notification of Two Public Teleconferences of the Science Advisory Board Integrated Nitrogen Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces two public teleconferences of the SAB Integrated Nitrogen Committee (INC) to discuss the committee's draft report.

DATES: The SAB INC will conduct two public teleconferences on July 8, 2009 and July 9, 2009. Both teleconferences will begin at 12 p.m. and end at 3 p.m. (Eastern Time).

ADDRESSES: The teleconferences will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing to obtain general information concerning the two public teleconferences may contact Dr. Angela Nugent, Designated Federal Officer (DFO), via telephone at (202) 343-9981 or e-mail at nugent.angela@epa.gov. General information concerning the EPA Science Advisory Board can be found on the EPA Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, Public Law 92-463 5 U.S.C., App. 2 (FACA), notice is hereby given that the SAB INC will hold two public teleconferences to discuss its draft report. The SAB was established pursuant to 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under

the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: The SAB INC is studying the need for integrated research and management strategies to reduce reactive nitrogen in the environment. At the global scale, reactive nitrogen from human activities now exceeds that produced by natural terrestrial ecosystems. Reactive nitrogen both benefits and impacts the health and welfare of people and ecosystems. Scientific information suggests that reactive nitrogen is accumulating in the environment and that nitrogen cycling through biogeochemical pathways has a variety of consequences. Information about the committee's previous meetings is available on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/jedrgstr_activites/Nitrogen%20Project.

The purpose of the teleconferences is for the SAB INC to discuss the committee's draft report addressing the environmental problems presented by reactive nitrogen and providing recommendations related to an integrated nitrogen management strategy.

Availability of Meeting Materials: Agendas and materials in support of the teleconferences will be placed on the SAB Web site at <http://www.epa.gov/sab> in advance of each teleconference.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the SAB INC to consider during the advisory process. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes per speaker, with no more than a total of one hour for all speakers. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Interested parties should contact the DFO, in writing (preferably via e-mail) at the contact information noted above, by July 6, 2009 to be placed on the list of public speakers for the meeting.

Written Statements: Written statements should be received in the SAB Staff Office by July 6, 2009 so that the information may be made available to the Committee members for their consideration. Written statements should be supplied to the DFO in the following formats: one hard copy with original signature, and one electronic copy via e-mail (acceptable file format:

Adobe Acrobat PDF, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). Submitters are requested to provide versions of each document submitted with and without signatures, because the SAB Staff Office does not publish documents with signatures on its Web sites.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Angela Nugent at (202) 343-9981 or nugent.angela@epa.gov. To request accommodation of a disability, please contact Dr. Nugent preferably at least ten days prior to the teleconferences to give EPA as much time as possible to process your request.

Dated: June 17, 2009.

Anthony Maciorowski,

Deputy Director, EPA Science Advisory Staff Office.

ACTION: Notice.

SUMMARY: EPA has established registration review dockets for the pesticides listed in the table in Unit III.A. With this document, EPA is opening the public comment period for these registration reviews. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency may consider during the course of registration reviews. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment. This document also announces the Agency's intent not to open a registration review docket for terpineols. This pesticide does not currently have any actively registered
