Title: General Hazardous Waste Facility Standards (Renewal).

ICR numbers: EPA ICR No. 1571.09, OMB Control No. 2050-0120.

ICR Status: This ICR is scheduled to expire on June 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's

regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 3004 of the Resource Conservation and Recovery Act (RCRA), as amended, requires that the U.S. Environmental Protection Agency (EPA) develop standards for hazardous waste treatment, storage, and disposal facilities (TSDFs) as may be necessary to protect human health and the environment. Subsections 3004(a)(1), (3), (4), (5), and (6) specify that these standards include, but not be limited to, the following requirements:

- Maintaining records of all hazardous wastes identified or listed under subtitle C that are treated, stored, or disposed of, and the manner in which such wastes were treated, stored, or disposed of;
- Operating methods, techniques, and practices for treatment, storage, or disposal of hazardous waste;
- Location, design, and construction of such hazardous waste treatment, disposal, or storage facilities;
- Contingency plans for effective action to minimize unanticipated damage from any treatment, storage, or disposal of any such hazardous waste; and
- Maintaining or operating such facilities and requiring such additional qualifications as to ownership, continuity of operation, training for personnel, and financial responsibility as may be necessary or desirable.

The regulations implementing these requirements are codified in 40 CFR parts 264 and 265. The collection of this information enables EPA to properly determine whether owners/operators or hazardous waste treatment, storage, and disposal facilities meet the requirements of section 3004(a) of RCRA.

Burden Statement: The annual public reporting burden for this collection of information is estimated to average 324 hours per respondent, and the annual public recordkeeping burden for this collection of information is estimated to average 88 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are business and other for-profit, as well as State, Local, and Tribal governments.

Estimated Number of Respondents: 1,403.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 578,381.

Estimated Total Annual Cost: \$38,057,653 including \$37,384,641 annualized labor costs and \$673,012 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 73,931 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This reduction is due to an estimated decrease in the respondent universe of 128.

Dated: June 18, 2009.

Director, Collection Strategies Division.

EPA Launches NetDMR

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Clean Water Act Discharge Monitoring Reports (DMRs) represent the highest volume of information collection undertaken by the Environmental Protection Agency (EPA). EPA Regions and select States, Tribes, and Territories will have a new tool available to assist their regulated National Pollutant Discharge Elimination System (NPDES) facilities in reporting DMRs beginning June 22, 2009. Additional States, Tribes, and Territories may adopt Network Discharge Monitoring Report (NetDMR) and enable their regulated NPDES facilities to begin utilizing the electronic reporting tool. NetDMR provides an

Internet-based reporting tool for NPDES facilities to electronically sign and submit DMRs. NetDMR allows participants to discontinue mailing in hard copy forms under 40 CFR 122.41 and 403.12.

DATES: The NetDMR application is available beginning June 22, 2009.

FOR FURTHER INFORMATION CONTACT: Allison Donohue, U.S. Environmental Protection Agency, Office of Enforcement and Compliance Assurance, Mail Stop 2222A, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 564-2195, donohue.allison@epa.gov.

SUPPLEMENTARY INFORMATION:

What Action Is EPA Taking?

A. Background

NetDMR will, for the first time, provide a national tool for regulated Clean Water Act permittees to submit and sign Discharge Monitoring Reports (DMRs) electronically via a secure Internet application to U.S. EPA through the Environmental Information Exchange Network. The transition from paper to electronic reporting significantly reduces the burden on States, Tribes, Territories, and the regulated community. NetDMR is consistent with the standards in the Cross-Media Electronic Reporting Regulation (CROMERR) § 3.2000, including the § 3.2000(b)(5) standards for electronic signatures and identify-proofing for "priority reports." An essential component of NetDMR is the exchange of data with EPA's Integrated Compliance Information System, which allows permittees to complete a DMR that is specific to their permit limits and outfalls.

B. Today's Action

On June 22, 2009, EPA Region 1 (New Hampshire and Massachusetts), EPA Region 3 (District of Columbia), EPA Region 6 (Gulf of Mexico), Utah and Louisiana will begin utilizing NetDMR.

C. How Can I Get Other Related Information?

Additional information on NetDMR can also be found at <http://www.epa.gov/netdmr>.
