Submission for OMB Review; Comment Request; Collection of Customer Service, Demographic, and Smoking/Tobacco Use Information From NCI Cancer Information Service (CIS) Clients (NCI)

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH), has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the **Federal Register** on May 1, 2009, (Vol. 74, No. 83, p. 20320) and allowed 60 days for public comment. One public comment was received on May 1, 2009 requesting a copy of the data collection plans. An e-mail response was sent on May 5, 2009, which included the Supporting Statements and the screenshots of the surveys. The purpose of this notice is to allow an additional 30 days for public

comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: Collection of Customer Service, Demographic, and Smoking/Tobacco Use Information from NCI Cancer Information Service (CIS) Clients (NCI) *Type of Information Collection Request:* Revision. *Need and Use of Information Collection:* The National Cancer Institute's Cancer Information Service (CIS) provides the latest information on cancer, clinical trials, and tobacco cessation in English and Spanish. Clients are served by calling 1-800-4-CANCER for cancer information; 1-877-44U-QUIT for smoking cessation services; and using the NCI's LiveHelp, a web-based chat service. CIS currently conducts a brief survey of a sample of telephone and LiveHelp clients at the end of usual service—a survey that includes three customer service and twelve demographic questions (age, sex, race, ethnicity, education, household income, number in household, and five questions about health care/coverage). Characterizing clients and how they found out about the CIS is essential to customer service, program planning, and promotion. The NCI also conducts a survey of individuals using the CIS's smoking cessation services—a survey that includes 20 smoking/tobacco use "intake" questions that serve as a needs assessment that addresses smoking history, previous quit attempts, and motivations to quit smoking. An additional question is used with callers who want to receive proactive call-back services. Responses to these questions enable Information Specialists to provide effective individualized counseling. *Frequency of Response:* Once. *Affected Public:* Individuals or households. *Type of Respondents:* People with cancer; their relatives and friends; and general public, including smokers/tobacco users. Annualized estimates for numbers of respondents and respondent burden are presented in the table below.

Type of respondents	Survey instrument	Number of respondents	Frequency of responses	Average time per response (minutes/hour)	Annual burden hours
Telephone Clients ¹					
	Customer Service	62,000	1	1/60	1,033.33
	Demographic Questions	22,000	1	2/60	733.33
