

redundant emergency backup power generation and various pollution control systems. These alternatives will be further developed during preparation of the Draft EIS as a result of public and agency input and environmental analyses of the activities. The No Action Alternative (not undertaking the Campus Development Project) will also be analyzed in detail.

This notice of intent is required by 40 Code of Federal Regulations (CFR) 1508.22 and briefly describes the proposed action and possible alternatives and our proposed scoping process. The EIS will comply with the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality regulations in 40 CFR parts 1500–1508, and DOD Instruction 4715.9 (Environmental Planning and Analysis).

*Significant Issues:* Environmental issues to be analyzed in the EIS will include potential impacts on air quality, natural resources, water use, solid waste, transportation, and cumulative impacts from increased burdens to the installation and neighboring community based on projected growth.

*Scoping Process:* Public scoping is an early and open process for identifying and determining the scope of issues to be addressed in the EIS. Scoping begins with this notice, continues through the public comment period (see **DATES**), and ends when the DOD has completed the following actions:

- Invites the participation of Federal, State, and local agencies, any affected Indian tribe and other interested persons
- Determines the actions, alternatives, and impacts described in 40 CFR 1508.25
- Identifies and eliminates from detailed study those issues that are not significant or that have been covered elsewhere
- Indicates any related environmental assessments or environmental impact statements that are not part of the EIS
- Other relevant environmental review and consultation requirements
- Indicates the relationship between timing of the environmental review and other aspects of the proposed program
- At its discretion, exercises the options provided in 40 CFR 1501.7(b).

Once the scoping process is complete, the DOD will prepare a Draft EIS, and will publish a **Federal Register** notice announcing its public availability. If you want that notice to be sent to you, please contact the DOD Project Office point of contact identified in **FOR FURTHER INFORMATION CONTACT**. You will

have an opportunity to review and comment on the Draft EIS. Additionally, the DOD anticipates holding a public meeting after publication of the Draft EIS in the vicinity of Fort Meade, Maryland to present the Draft EIS and receive public comments regarding the document. The DOD will consider all comments received and then prepare the Final EIS. As with the Draft EIS, the DOD will announce the availability of the Final EIS and once again give you an opportunity for review and comment.
