

review. *See, e.g., Granular Polytetrafluoroethylene Resin from Italy: Final Results of Changed Circumstances Review*, 68 FR 25327 (May 12, 2003). These cash deposit rates, if imposed, shall remain in effect until further notice.

Also in accordance with 19 CFR 351.221(c)(3)(i), we preliminarily determine that CAFISH is not the successor-in-interest to CATACO. In its March 13, 2009, submission, the information and evidence CATACO provided do not support the claim that CAFISH is the successor-in-interest to CATACO's shrimp factory. The documentation attached to CATACO's submission shows significant changes in all key categories that the Department considers in successor-in-interest determinations. That is, in terms of management, production facilities, supplier relationships, and customer base, the documentation shows that CAFISH is materially dissimilar from CATACO's shrimp factory. In addition, CAFISH continues to conduct its sales to the United States through CATACO, thus CATACO remains an active exporter of the subject merchandise. *See Analysis Memo*, pp. 6–7. Thus we preliminarily find that CAFISH should not receive CATACO's current separate rate and that the cash deposit rate for the subject merchandise exported and manufactured by CAFISH should continue to be the current Vietnam-wide rate.

Chinook Salmon Bycatch Data Collection Program

AGENCY: Alaska Fishery Science Center (AFSC), National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public workshop.

SUMMARY: NMFS announces a workshop to solicit comments from the Bering Sea Pollock fishing industry and other interested persons/parties on draft reporting forms for a proposed Chinook salmon bycatch data collection program.

DATES: The workshop will be held on Thursday, July 16, 2009, from 8 a.m. to 5 p.m., Pacific standard time.

ADDRESSES: The workshop will be held at the Nordby Conference Room at Fishermen's Terminal, Seattle, WA 98119.

FOR FURTHER INFORMATION CONTACT: Dr. Brian Garber-Yonts, AFSC, 206–526–6301.

SUPPLEMENTARY INFORMATION: NMFS is hosting a public workshop to solicit comment on a data collection program under consideration by the North Pacific Fishery Management Council (Council). The program would collect data from the Bering Sea Pollock industry to evaluate the effectiveness of voluntary industry incentive programs to reduce Chinook salmon bycatch, as well as how the Council's proposed Chinook salmon bycatch limits and bycatch performance standards affect where, when, and how pollock fishing and salmon bycatch occur.

The workshop is an initial information-gathering step intended to ensure that the data collection program collects consistent and accurate information. A draft of each data collection form will be posted on the Alaska Region website (<http://www.alaskafisheries.noaa.gov>) at least one week in advance of the workshop.

NMFS especially invites people from industry with management, accounting, and fishing backgrounds (especially

fishing location decision making), who are familiar with:

- Salmon and pollock transfers (including prices);
- Cost and revenue information and the way that is kept (including fuel costs of changing fishing location and roe prices, revenues, and quality); and
- Decisions to move a vessel and the costs associated with moving a vessel.

Special Accommodations

This workshop is physically accessible to people with disabilities. Requests for special accommodations should be directed to Brian Garber-Yonts (see **FOR FURTHER INFORMATION CONTACT**) at least 5 working days before the workshop date.

Dated: June 29, 2009.
