Pamela Blakley, Chief, Air Permits Section, Air Programs Branch, Air and Radiation Division, EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, telephone (312) 886-4447.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and object, as appropriate, to operating permits proposed by state permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of the EPA review period to object to a state operating permit if EPA has not done so. A petition must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise issues during the comment period, or the grounds for the issues arose after this period.

On August 23, 2007, EPA received a petition from the Sierra Club requesting that EPA object to the Title V operating permit for Oak Creek. The Petitioner alleges that the permit is not in compliance with the requirements of the Act. Specifically, the Petitioner alleges that: (1) The permit must include a compliance schedule; (2) the permit application contains a false certification of compliance; (3) the permit application does not contain sufficient information to determine the applicability of the Prevention of Significant Deterioration program; (4) physical changes to the boilers at units 5 and 6 are subject to lower particulate matter (PM) emissions limits than are contained in the permit; (5) the permit must establish compliance demonstration requirements that ensure continuous compliance with emissions limits; (6) the facility's Compliance Assurance Monitoring (CAM) plan is deficient; (7) the facility's CAM plan ignores condensable PM; (8) the permit illegally exempts Oak Creek from applicable limits during start-up, shutdown, and malfunction; (9) plans referenced in the permit must be included in the permit and made available for public comment; and (10) the permit must require that the source submit all monitoring data and recordkeeping to the WDNR. On June 12, 2009, the Administrator issued an order granting the Oak Creek petition in part, and denying it in part. The order explains the reasons behind EPA's conclusion.

SUPPLEMENTARY INFORMATION: Notice is

hereby given that a petition has been received from the State of New York requesting a determination by the Regional Administrator, U.S. Environmental Protection Agency—Region 2, pursuant to section 312(f)(3) of Public Law 92-500 as amended by Public Law 95-217 and Public Law 100-4, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for South Shore Estuary Reserve (SSER) and its harbors, bays and creeks within the following boundaries:

East Rockaway Inlet, approach to Reynolds Channel, flashing green buoy (N “9”)

N40°-35.5’

W73°-44.9’

Jones Inlet, Jones Inlet red buoy (N “8”)

N40°-35.2’

W73°-34.3'
 Fire Island Inlet, Fire Island Inlet
 flashing red buoy (N "10")
 N40°-37.5'
 W73°-17.9'
 Moriches Inlet, flashing red tower on
 east jetty terminus
 N40°-45.8'
 W72°-45.3'
 Shinnecock Inlet, flashing green tower
 on west jetty terminus
 N40°-50.2'
 W72°-28.7'

The SSER encompasses 110,720 acres of open water and intertidal area. The waterbodies included in the SSER are Shinnecock Bay (East and West), Quantuck Bay, Moriches Bay (East and West), Bellport Bay, Patchogue Bay, Nicoll Bay, Great South Bay (West, East and Great Cove), South Oyster Bay, East Bay Complex, Middle Bay Complex and Western South Shore Bay.

New York has provided documentation indicating the SSER vessel population and the number of pumpouts for each embayment. Shinnecock Bay—East is serviced by 3 pumpouts and has a vessel population of 864 (288 vessels per pumpout). Shinnecock Bay—West is serviced by 1 pumpout and has a vessel population of 1841 (1841 vessels per pumpout). Quantuck Bay is serviced by 1 pumpout and has a vessel population of 363 (363 vessels per pumpout). Moriches Bay—East is serviced by 2 pumpouts and has a vessel population of 951 (476 vessels per pumpout). Moriches Bay—West is serviced by 5 pumpouts and has a vessel population of 1829 (366 vessels per pumpout). Bellport Bay is serviced by 2 pumpouts and has a vessel population of 336 (168 vessels per pumpout). Patchogue Bay is serviced by 11 pumpouts and has a vessel population of 2814 (256 vessels per pumpout). Nicoll Bay is serviced by 6 pumpouts and has a vessel population of 1765 (294 vessels per pumpout). Great South Bay—East and Great Cove is serviced by 7 pumpouts and has a vessel population of 1810 (259 vessels per pumpout). Great South Bay—West is serviced by 12 pumpouts and has a vessel population of 5066 (422 vessels per pumpout). South Oyster Bay is serviced by 5 pumpouts and has a vessel population of 1453 (291 vessels per pumpout). East Bay Complex is serviced by 4 pumpouts and has a vessel population of 747 (187 vessels per pumpout). Middle Bay Complex is serviced by 8 pumpouts and has a vessel population of 3392 (424 vessels per pumpout). Western South Shore Bay is serviced by 2 pumpouts and has a vessel population of 705 (352 vessels per pumpout).

The criterion established by the Clean Vessel Act regarding an adequate number of pumpouts per vessel population is 1 pumpout per 300–600 vessels. All areas of the SSER meet or exceed this criterion with the exception of Shinnecock Bay—West, which has one pumpout per 1841 vessels. When facilities in this embayment are added to facilities in the adjacent waters (Shinnecock Bay—East and Quantuck Bay) a total of 5 pumpouts service a vessel population of 2492. The ratio is one pumpout per 498 vessels, which meets the criterion.

Re: Notice of Suspension and Initiation of Debarment Proceedings, File No. EB-09-IH-0402

Dear Mr. Benit: The Federal Communications Commission ("FCC" or "Commission") has received notice of your conviction of mail fraud, in violation of 18 U.S.C. 2, 1341, and 1346 in connection with your participation in the schools and libraries universal service support mechanism ("E-Rate program").¹ Consequently, pursuant to 47 CFR 54.8, this letter constitutes official notice of your suspension from the E-Rate program. In addition, the Enforcement Bureau ("Bureau") hereby notifies you that we are commencing debarment proceedings against you.²

¹ Any further reference in this letter to "your conviction" refers to your guilty plea and subsequent conviction of one count of mail fraud. *United States v. Douglas A. Benit*, Criminal Docket No. 2:06CR20285-1, Plea Agreement (D. Mich. filed Nov. 24, 2008 and entered Nov. 25, 2008) ("*Douglas Benit Plea Agreement*"); *United States v. Douglas A. You also plead guilty to one count of bank fraud, in violation of 18 U.S.C. 2 and 1344. See *Douglas Benit Plea Agreement*; see also *Douglas Benit Judgment*. This notice of suspension and initiation of debarment proceedings arises from your conviction of mail fraud, and as such, does not discuss your guilty plea and subsequent conviction of bank fraud.
