[Docket No. FSIS-2009-0015]

RIN 0583-AA69

Recordkeeping Regulations; Correcting Amendment

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Correcting amendment.

SUMMARY: The Food Safety and Inspection Service (FSIS) is amending the Federal meat inspection regulations to correct an inadvertent error in the recordkeeping provisions.

DATES: This amendment is effective July 6, 2009.

FOR FURTHER INFORMATION CONTACT: Rachel Edelstein, Director, Policy Issuances Division, Office of Policy and Program Development, FSIS, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Washington, DC 20250-3700, (202) 720-0399.

SUPPLEMENTARY INFORMATION: On November 30, 1990, FSIS published a final rule on net weight labeling of meat and poultry products (55 FR 49826). The rule redesignated § 317.20 as § 317.24 (55 FR 49833). However, in § 320.1(b)(5), the rule did not change the reference to § 317.24. This notice corrects the error and amends § 320.1(b)(5) to refer to § 317.24.

DEPARTMENT OF ENERGY

10 CFR Part 430

[Docket No. EERE-2007-BT-TP-0013]

RIN 1904-AB72

Energy Conservation Program: Test Procedures for General Service Fluorescent Lamps, Incandescent Reflector Lamps, and General Service Incandescent Lamps

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Final rule.

SUMMARY: The Department of Energy (DOE) is amending its test procedures for certain fluorescent and incandescent lamps, which manufacturers are required to use to certify compliance with energy conservation standards mandated under the Energy Policy and Conservation Act (EPCA). Specifically, these amendments update citations and references to the industry standards currently referenced in DOE's test procedures, and make several technical modifications. The amendments also provide test methods for some general service fluorescent lamps, based on new product designs, which are subject to existing energy conservation standards but do not currently have test procedures in place. Test procedures for additional general service fluorescent lamps to which the energy conservation standards rulemaking extends coverage will be adopted as part of the upcoming energy conservation standards final rule. Finally, because the Energy Independence and Security Act of 2007 (EISA 2007) adopted energy conservation standards for certain general service incandescent lamps, DOE is amending its test procedures for incandescent lamps to provide appropriate methods to test these lamps.

DATES: This rule is effective August 5, 2009. Incorporation by reference of certain publications in this final rule is approved by the Director of the Office of the Federal Register as of August 5, 2009.
