RIN 2120–AG87

Revisions to Digital Flight Data Recorder Regulations for Boeing 737 Airplanes and for All Part 125 Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; correction.

SUMMARY: The Federal Aviation Administration (FAA) is amending a final rule published in the **Federal Register** on December 2, 2008. That final rule amended the regulations governing flight data recorders to increase the number of digital flight data recorder parameters for all Boeing 737 series airplanes manufactured after August 18, 2000. The rule also adopts a prohibition on deviations from flight recorder requirements for all airplanes

operated under part 125. In our changes to part 125, the FAA incorrectly referenced the appendix containing airplane flight recorder specifications as appendix M when it is actually appendix E.

DATES: *Effective Date:* These amendments become effective July 9, 2009.

SUPPLEMENTARY INFORMATION: The Federal Aviation Administration published a final rule entitled “Revisions to Digital Flight Data Recorder Regulations for Boeing 737 Airplanes and for All Part 125 Airplanes” in the **Federal Register** on December 2, 2008 (73 FR 73171). That final rule amended the regulations governing flight data recorders to increase the number of digital flight data recorder parameters for all Boeing 737 series airplanes manufactured after August 18, 2000. The rule also adopted a prohibition on deviations from flight recorder requirements for all airplanes operated under part 125.

Following publication of the final rule, an individual contacted us noting that the amended language in § 125.226(f)(1) references “appendix M to this part” when the correct appendix is appendix E. Upon reviewing our other changes to part 125, we noted the same incorrect reference in the amended language of § 125.226(n).

This document makes the appropriate amendatory changes to §§ 125.226(f)(1) and 125.226(n) to correctly reference appendix E to part 125.

Correcting Amendment

This correcting amendment will clarify the references to appendix E to part 125 in §§ 125.226(f)(1) and 125.226(n).

37 CFR Part 201

[Docket No. RM 2008–9]

Fees

AGENCY: Copyright Office, Library of Congress.

ACTION: Final rule.

SUMMARY: The Copyright Office of the Library of Congress is publishing a final rule establishing adjusted fees for its services. The adjusted fees will recover a significant part of the costs to the Office of registering claims and provide full cost recovery for many other services provided by the Office which benefit only or primarily the user of that service. The new fees are based on reliable information regarding the costs of providing services, and reflect cost savings associated with the implementation of electronic processing in the Copyright Office in 2007. Under the new fee structure, the fee for online registration of a basic claim will remain \$35. The registration fee for Form CO will be raised from \$45 to \$50 and the registration fee for paper filings of Forms PA, SR, TX, VA, SE and faulty CO will be raised from \$45 to \$65. In a few instances, fees have been adjusted downward from the fees published in the notice of proposed rulemaking in light of comments received from the public.

EFFECTIVE DATE: August 1, 2009.

SUPPLEMENTARY INFORMATION:

Background

This final rule adjusts Copyright Office fees in accordance with the applicable provisions of title 17, United States Code, and the Technical Amendments Act, Pub. L. No. 105–80, 111 Stat. 1529 (1997), codified as 17

U.S.C. 708(b). The expenses of the Copyright Office have always been substantially funded through the charging of fees for the services provided. Nevertheless, fees have never provided full cost recovery for all expenditures of the Copyright Office. For the last fifty years, cost recovery through the charging of fees has ranged between 50% to 80% of the expenses of the Copyright Office. The current fee adjustment is forecasted to cover approximately 60% of the Copyright Office's expenses.

In 1997, Congress amended section 708 of the Copyright Act, delegating to the Register of Copyrights authority to adjust fees by regulation in accordance with a new procedure. Fees for services specifically enumerated in sections 708(a)(1)–(9), referred to as “statutory fees,” are adjusted according to the procedures set forth in section 708(b). This procedure requires the Register of Copyrights to complete a cost study, and forward an economic report and proposed fee schedule to Congress. The Register may implement the new rules after 120 days unless Congress enacts a law within that period disapproving the new fees.

The Register also has authority under the law to adopt new fees for other services based on “the cost of providing the service.” 17 U.S.C. 708(a). These fees are for services not specifically enumerated in sections 708(a)(1)–(9), and for the purpose of this rulemaking, these fees are termed “discretionary fees.” As with the statutory fees, the Copyright Office adjusts the discretionary fees after conducting a cost study to determine the cost of providing the service and providing the public an opportunity to comment on the proposed fee changes.

The Copyright Office has instituted fee adjustments under the Technical Amendments Act on four separate occasions. The first schedule was adopted in 1999. *See* 63 FR 43426 (August 13, 1998) and 64 FR 29518 (June 1, 1999). Three years later a second adjustment was made raising many copyright fees, but leaving the basic registration fee at \$30. 67 FR 38003 (May 31, 2002). The third fee adjustment was adopted in 2006, in which most statutory fees were again raised in response to an increase in costs. At that time, the basic registration fee was increased from \$30 to \$45. 71 FR 15368 (March 28, 2006) and 71 FR 31089 (June 1, 2006). The registration fee was again adjusted in 2007, at which time the Office established a lower basic registration fee of \$35 for copyright claims submitted electronically, while retaining the \$45 fee for filing a paper
