

SAFEGUARDS:

Information in this system is safeguarded in accordance with applicable laws, rules, and policies, including the DHS Information Technology Security Program Handbook. The CTS security protocols will meet applicable NIST Security Standards, from Authentication to Certification and Accreditation. Records in the system will be maintained in a secure, password-protected electronic system that will utilize security hardware and software to include multiple firewalls, active intruder detection, and role-based access controls. All records are protected from unauthorized access through appropriate administrative, physical, and technical safeguards. These safeguards include restricting access to authorized personnel who have a need-to-know, using locks, and password protection identification features. DHS file areas are locked after normal duty hours and the facilities are protected from the outside by security personnel.

RETENTION AND DISPOSAL:

CTS handles both information collected directly from the individual and information collected from DHS components and other agencies. DHS is working on a retention schedule with its Senior Records Officer for information collected directly from the individual. It is anticipated that the retention period for these records will be up to seven years. To the extent information is collected from other systems, data is retained in accordance with the record retention requirements of those systems.

SYSTEM MANAGER AND ADDRESS:

The System Manager is the Program Manager, DHS CTS, U.S. Department of Homeland Security, Washington, DC 20528.

NOTIFICATION PROCEDURE:

Individuals seeking notification of and access to any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Headquarters or component's FOIA Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "contacts." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to Chief Privacy Officer, Department of Homeland Security, Washington, DC 20528.

When seeking records about yourself from this system of records or any other Departmental system of records, your request must conform with the Privacy

Act regulations set forth in 6 CFR Part 5. You must first verify your identity, meaning that you must provide your full name, current address and date and place of birth. You must sign your request, and your signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, you may obtain forms for this purpose from the Director, Disclosure and FOIA, <http://www.dhs.gov/foia> or 1-866-431-0486. In addition you should provide the following:

- An explanation of why you believe the Department would have information on you,
- Identify which component(s) of the Department you believe may have the information about you,
- Specify when you believe the records would have been created,
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records,
- If your request is seeking records pertaining to another living individual, you must include a statement from that individual certifying his/her agreement for you to access his/her records.

Without this bulleted information the component(s) may not be able to conduct an effective search, and your request may be denied due to lack of specificity or lack of compliance with applicable regulations.

RECORD ACCESS PROCEDURES:

See "Notification procedure" above.

CONTESTING RECORD PROCEDURES:

See "Notification procedure" above.

RECORD SOURCE CATEGORIES:

Any person, including citizens and representatives of Federal, State or local governments; businesses; and industries. Any Federal system with records appropriate and relevant to the redress process, including the Intranet Quorum system.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

No exemption shall be asserted with respect to information submitted by and collected from the individual or the individual's representative in the course of any redress process associated with this System of Records.

This system, however, may contain records or information recompiled from or created from information contained in other systems of records, which are exempt from certain provisions of the Privacy Act. For these records or information only, in accordance with 5

U.S.C. 552a(j)(2), (k)(1), (k)(2), and (k)(5), DHS will also claim the original exemption for these records or information from subsections (c)(3) and (4); (d)(1), (2), (3), and (4); (e)(1), (2), (3), (4)(G) through (I), (5), and (8); (f); and (g) of the Privacy Act of 1974, as amended, as necessary and appropriate to protect such information. Such exempt records or information may be law enforcement or national security investigation records, law enforcement activity and encounter records, or terrorist screening records.

These records could come from various DHS systems, such as the Treasury Enforcement Communications System (TECS) and the Transportation Security Information System (TSIS), or from third agency systems. DHS, after conferring with the appropriate component or agency, may waive applicable exemptions in appropriate circumstances and where it would not appear to interfere with or adversely affect the law enforcement or national security purposes of the systems from which the information is recompiled or in which it is contained. As required under the Privacy Act, DHS will issue a rule to describe more fully the needs and requirements for taking such exemptions on such information.
