Cinnamon Ranch Hydroelectric Project; Notice of Availability of Environmental Assessment

July 16, 2009.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed

the application for a subsequent license for the Cinnamon Ranch Hydroelectric Project, and has prepared an Environmental Assessment. The operating project is located on Pellisier Creek, Middle Creek, and Birch Creek, in the Hammil Valley area of Mono County, near the Town of Benton, California. The project occupies 0.13 acre of U.S. Forest Service lands within the Inyo National Forest and 7.53 acres of lands administered by the Bureau of Land Management.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that relicensing the project would not constitute a major Federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
