

Number of Respondents: ~1,000.
Responses per Respondent: 5.
Average Burden per Response: 1 hrs.
Frequency: Periodic as needed.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are SMART Program participants and their advisors, future employers, and mentors who provide contact, Program progress, and student status information for the purpose of monitoring student participants' progress and position in the SMART Program as part of their agreement as Program participants. All information is collected by direct entry during secure logon sessions and/or by electronic or paper forms collected by SMART Program staff performing official duties. All information sought and collected is requisite to the short- and long-term operations of the Program. All persons must expressly consent to providing the information before they are allowed to provide it.

Dated: May 31, 2009.

DEPARTMENT OF DEFENSE

Office of the Secretary

**Web-Based Mental Health Care
 Demonstration Project**

AGENCY: Department of Defense.

ACTION: Notice of a Web-based TRICARE Assistance Program Demonstration Project.

SUMMARY: This Notice is to advise interested parties of a Military Health System (MHS) demonstration project, under the authority of Title 10, U.S. Code, Section 1092, entitled Web-Based TRICARE Assistance Program. The demonstration project will use existing managed care support contracts (MCSC) to provide a Web-based employee assistance program (EAP) including counseling and advice services to Active Duty Service members, their families and their dependents enrolled in TRICARE Reserve Select, and those eligible for the Transition Assistance Management Program (TAMP) who reside in the continental United States. We are testing the effectiveness of providing this care.

DATES: *Effective Date:* This demonstration project will be effective August 1, 2009. The demonstration

project will continue until April 1, 2010.

ADDRESSES: TRICARE Management Activity (TMA), Health Plan Operations, 5111 Leesburg Pike, Suite 810, Falls Church, VA 22041.

FOR FURTHER INFORMATION CONTACT: For questions pertaining to this demonstration project, Ms. Kathleen Larkin, (703) 681-0039.

SUPPLEMENTARY INFORMATION:

a. Background

On page 405 of House Report 2638, the Department of Defense Appropriations Act for FY 2009 Joint Explanatory Statement, Congress stated: "An area of particular interest is the provision of appropriate and accessible counseling to service members and their families who live in locations that are not close to military treatment facilities, other Military Health System facilities, or TRICARE providers. Web-based delivery of counseling has significant potential to offer counseling to personnel who otherwise might not be able to access it. Therefore, the Department is directed to establish and use a Web-based Clinical Mental Health Services Program as a way to deliver critical clinical mental health services to service members and families in rural areas."

This demonstration is designed to test the effectiveness and efficiency of utilizing audio and visual technologies including Web-based services to provide our Active Duty Service members, their families and other beneficiaries increased access to EAP-like services.

b. Current Status of Access

The Department of Defense currently provides a robust program of nonmedical counseling, as well as mental health care for our Active Duty Service members and their families. The Department offers Military One Source which provides for up to 12 nonmedical face-to-face counseling sessions per issue, per counselor. For those needing medical treatment, we provide behavioral health care in our military treatment facilities or through our TRICARE program.

Our MCSCs currently provide an array of text and multimedia based educational materials targeting pre-deployment, deployment, and post-deployment adjustment concerns. They also have behavioral health (BH) contact centers staffed with beneficiary service representatives and customer service representatives to provide first and second level support, triage, and to make appropriate referrals and locate providers for Active Duty Service

members and their families. This demonstration project will expand access to these behavioral health services by using audiovisual telecommunications systems such as video chat/instant messaging to access the BH centers. It also expands access to the Behavioral Health call centers and EAP-like counseling to those enrolled in TRICARE Reserve Select.

c. Demonstration Project Description

The MCSCs' Behavioral Health call center staff will triage those seeking help and refer them to an appropriate level of assistance. This may include Military One Source, a military treatment facility, a network provider for face-to-face care, or for a tele-health visit from an authorized originating site facility to a TRICARE authorized provider's office. In addition, they may perform unlimited assessments and nonmedical counseling or advice using a Web-based platform to ease access for Active Duty Service members, their families, those enrolled in TRICARE Reserve Select, and TAMP-eligibles.

d. Implementation

This demonstration will be effective August 1, 2009.

e. Evaluation

An independent evaluation of the demonstration will be conducted. It will be performed retrospectively and use a combination of administrative and workload measures of behavioral health care access to provide analyses and comment on the effectiveness of the demonstration in meeting its goal of improving beneficiary access to behavioral health care by incorporating Web-based technology.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA-2009-0019]

**Proposed Collection; Comment
 Request**

AGENCY: Office of the Administrative Assistant to the Secretary of the Army, (OAA-AAHS), DoD.

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the *Paperwork Reduction Act of 1995*, the Department

of the Army announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by September 22, 2009.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Mail:* Federal Docket Management System Office, 1160 Defense Pentagon, Washington, DC 20301-1160.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the USACE Directorate of Civil works, Institute for Water Resources, 7701 Telegraph Road/Casey Building, Alexandria, Virginia 22315-3868. ATTN: (Virginia R. Pankow), or call Department of the Army reports clearance officer at (703) 428-6440.

Title, Associated Form, and OMB Number: Lock Performance Monitoring System (LMPS); Waterway Traffic Report, ENG FORMS 3102C and 3102D; OMB Control Number 0710-0008.

Needs and Uses The U.S. Army Corps of Engineers utilizes the data collected to monitor and analyze the use and operation of federally owned and operated locks; owners, agents and masters of vessels and estimated tonnage and commodities carried. The information is used for sizing and

scheduling replacement or maintenance of locks and canals.

Affected Public: Business or other for-profit.

Annual Burden Hours: 28,500.

Number of Respondents: 3,000.

Responses per Respondent: 228.

Average Burden per Response: 2.5 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The data is used primarily by the Corps of Engineers in conducting a system wide approach to planning and management on the waterway. The Headquarters, Division and District Offices use the information specifically to assist in making determinations on: Adequate staffing for operations and maintenance of the navigation locks and dams; to justify the hours of locks operations; to provide a basis to justify the continued funding as set out in the President's Operation and Maintenance, General Budget; to schedule route maintenance and repairs; to serve as a basis for studies and plans for improvement; for lock operating procedures; to provide data to be used in analyses for major modifications or replacements to lock and dam structures; and to forecast the impact the lock delays, downtown, and proposed changes have on the diversion of waterborne commerce to other transportation modes.
