

County-Blaine Airport (Janes Field), Minneapolis, MN, for the safety and management of IFR operations. This action also updates the geographic coordinates of the Anoka County-Blaine Airport (Janes Field) and Minneapolis-St. Paul International Airport to coincide with the FAA's National Aeronautical Charting Office, and makes minor corrections to the legal description published in the Notice of Proposed Rulemaking.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it adds additional controlled airspace at Anoka County-Blaine Airport (Janes Field), Minneapolis, MN.

14 CFR Part 71

[Docket No. FAA–2009–0187; Airspace Docket No. 09–ACE–3]

Amendment of Class E Airspace; Ankeny, IA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at Ankeny, IA. Cancellation of NDB approaches at Ankeny Regional Airport has made it necessary to reconfigure Class E airspace. Controlled airspace is necessary to accommodate Area Navigation (RNAV) Standard Instrument Approach Procedures (SIAP) at Ankeny Regional Airport, Ankeny, IA. The FAA is taking this action to enhance the safety and management of Instrument Flight Rule (IFR) operations at Ankeny Regional Airport. This action also updates the geographic coordinates of the airport to coincide with the FAA's National Aeronautical Charting Office.

DATES: Effective 0901 UTC, October 22, 2009. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On April 27, 2009, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace at Ankeny, IA, reconfiguring controlled airspace at Ankeny Regional Airport, Ankeny, IA. (74 FR 19029, Docket No. FAA–2009–0187). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraphs 6002 and 6005 of FAA Order 7400.9S signed October 3, 2008, and effective October 31, 2008, which is incorporated by reference in 14 CFR Part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order. Subsequent to publication, the

FAA found that the cite for the Class E2 airspace was omitted. With the exception of editorial changes, and the changes described above, this rule is the same as that proposed in the NPRM.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace at Ankeny, IA, reconfiguring controlled airspace at Ankeny Regional Airport, Ankeny, IA, for the safety and management of IFR operations. This action also updates the geographic coordinates of the airport to coincide with the FAA's National Aeronautical Charting Office. This rule also cites the correct paragraph in which the Class E2 airspace is found in FAA Order 7400.9S.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Ankeny Regional Airport, Ankeny, IA.

Applications for Food and Drug Administration Approval To Market a New Drug; Postmarketing Reports; Reporting Information About Authorized Generic Drugs

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations to require that the holder of a new drug application (NDA) submit certain information regarding authorized generic drugs in an annual report. We are taking this action as part of our implementation of the Food and Drug Administration Amendments Act of 2007 (FDAAA). FDAAA requires that FDA publish a list of all authorized generic drugs included in an annual report since 1999, and that the agency update the list quarterly.

DATES: This final rule is effective January 25, 2010.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of September 29, 2008 (73 FR 56487), FDA published a direct final rule to amend § 314.3 (21 CFR 314.3) to add a definition of "authorized generic drug" and § 314.81 (21 CFR 314.81) to require that an NDA holder specifically report that it has marketed an authorized generic drug during the applicable time period. We explained that we issued this rule as a direct final rule because we believed it was noncontroversial and that there was little likelihood of receiving significant
