Title: Inclusion of Delaware and New Jersey in the Clean Air Interstate Rule (Renewal).

ICR numbers: EPA ICR No. 2184.03, OMB Control No. 2060-0584.

ICR Status: This ICR is scheduled to expire on July 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The United States (U.S.) Environmental Protection Agency (EPA) promulgated a rule to add the States of Delaware and New Jersey to the States that are subject to the Clean Air Interstate Rule (CAIR) because of their

PM_{2.5} impact on other States and to require that Delaware and New Jersey report all of the emissions-related data required by CAIR. (Delaware and New Jersey are already affected by ozone-related requirements in CAIR.) These emissions data reporting requirements include reporting requirements and combine these reporting requirements with existing requirements from the Consolidated Emissions Reporting Rule (CERR), the Emission Reporting Requirements for Ozone State Implementation Plan (SIP) Revisions Relating to Statewide Budgets for NO_x Emissions to Reduce Regional Transport of Ozone (NO_x SIP Call), the Acid Rain Program under Title IV of the CAA Amendments of 1990, and the Rule to Reduce Interstate Transport of Fine Particulate Matter and Ozone (Clean Air Interstate Rule, CAIR). Each of these four existing requirements has an approved ICR in place. The current ICRs are: for the CERR, EPA ICR 0916.12 (OMB 2060-0088), for the NO_x SIP Call, EPA ICR 1857.04 (OMB 2060-0445), for the Acid Rain Program, EPA ICR 1633.14 (OMB 2060-0258), and for CAIR, EPA ICR 2152.03 (OMB 2060-0570).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Electric utilities, industrial sources, and State Governments.

Estimated Number of Respondents: 62.

Frequency of Response: on occasion, quarterly, and annually.

Estimated Total Annual Hour Burden: 2,334.

Estimated Total Annual Cost: \$235,925, which includes \$20,300.00 in annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 208 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to adjustments to the estimates reflecting the current requirements of the program.

Dated: July 23, 2009.

John Moses,

Director, Collection Strategies Division.
