

telephone answering machines; video recorders; transceivers; monitors and projectors; key pads; thermionic, cold cathode or photocathode tubes; and cables (duty rate ranges from 0 to 17.6%).

FTZ procedures could exempt Brightpoint from customs duty payments on the foreign components used in export production. The company anticipates that some 5 percent of the plant's shipments will be exported. On its domestic sales, Brightpoint would be able to choose the duty rates during customs entry procedures that apply to cell phone sets (duty-free) for the foreign inputs noted above. FTZ designation would further allow Brightpoint to realize logistical benefits through the use of weekly customs entry procedures. Customs duties also could possibly be deferred or reduced on foreign status production equipment. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Elizabeth Whiteman of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is September 28, 2009. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to October 13, 2009.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230-0002, and in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Deferral of Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with June anniversary dates. In accordance with the Department's regulations, we are initiating those administrative reviews. The Department also received a request to defer the initiation of an administrative review for one antidumping duty order.

EFFECTIVE DATE: July 29, 2009.

FOR FURTHER INFORMATION CONTACT:

Sheila E. Forbes, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone: (202) 482-4697.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with June anniversary dates. Please note that in the initiation notice that published on June 24, 2009 (74 FR 30052) the Department listed incorrect case numbers for the antidumping duty orders on Ball Bearings and Parts Thereof from France, Germany, Italy, Japan and the United Kingdom. The correct case numbers for these cases are as follows: France (A-427-801), Germany (A-428-801), Italy (A-475-801), Japan (A-588-804), and the United Kingdom (A-412-801).

Notice of No Sales

Under 19 CFR 351.213(d)(3), the Department may rescind a review where there are no exports, sales, or entries of subject merchandise during the respective period of review ("POR") listed below. If a producer or exporter named in this initiation notice had no exports, sales, or entries during the POR, it should notify the Department within 30 days of publication of this notice in the **Federal Register**. The Department will consider rescinding the review only if the producer or exporter,

as appropriate, submits a properly filed and timely statement certifying that it had no exports, sales, or entries of subject merchandise during the POR. All submissions must be made in accordance with 19 CFR 351.303 and are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended ("the Act"). Six copies of the submission should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room 1870, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230. Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy of each request must be served on every party on the Department's service list.

Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews, the Department intends to select respondents based on U.S. Customs and Border Protection ("CBP") data for U.S. imports during the POR.

We intend to release the CBP data under Administrative Protective Order ("APO") to all parties having an APO within five days of publication of this initiation notice and to make our decision regarding respondent selection within 20 days of publication of this **Federal Register** notice. The Department invites comments regarding the CBP data and respondent selection within 10 calendar days of publication of this **Federal Register** notice.

Separate Rates

In proceedings involving non-market economy ("NME") countries, the Department begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is the Department's policy to assign all exporters of merchandise subject to an administrative review in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate.

To establish whether a firm is sufficiently independent from government control of its export activities to be entitled to a separate rate, the Department analyzes each entity exporting the subject merchandise under a test arising from the *Final Determination of Sales at Less Than Fair Value: Sparklers from the People's Republic of China*, 56 FR 20588 (May 6, 1991), as amplified by *Final Determination of Sales at Less Than*

Fair Value: Silicon Carbide from the People's Republic of China, 59 FR 22585 (May 2, 1994). In accordance with the separate-rates criteria, the Department assigns separate rates to companies in NME cases only if respondents can demonstrate the absence of both *de jure* and *de facto* government control over export activities.

All firms listed below that wish to qualify for separate-rate status in the administrative reviews involving NME countries must complete, as appropriate, either a separate-rate application or certification, as described below. For these administrative reviews, in order to demonstrate separate-rate eligibility, the Department requires entities for whom a review was requested, that were assigned a separate rate in the most recent segment of this proceeding in which they participated, to certify that they continue to meet the criteria for obtaining a separate rate. The Separate Rate Certification form will be available on the Department's website at <http://www.trade.gov/ia> on the date of publication of this **Federal Register**. In responding to the certification, please follow the "Instructions for Filing the Certification" in the Separate Rate Certification. Separate Rate Certifications are due to the Department no later than 30 calendar days of

publication of this **Federal Register** notice. The deadline and requirement for submitting a Certification applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers who purchase and export subject merchandise to the United States.

Entities that currently do not have a separate rate from a completed segment of the proceeding¹ should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. In addition, companies that received a separate rate in a completed segment of the proceeding that have subsequently made changes, including, but not limited to, changes to corporate structure, acquisitions of new companies or facilities, or changes to their official company name,² should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. The Separate Rate Application will be available on the Department's website at <http://ia.ita.doc.gov/nme/nme-sep-rate.html> on the date of publication of this **Federal Register** notice. In responding to the Separate Rate Status Application, refer to the instructions contained in the application. Separate Rate Status Applications are due to the Department no later than 60 calendar days of

publication of this **Federal Register** notice. The deadline and requirement for submitting a Separate Rate Status Application applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers that purchase and export subject merchandise to the United States.

For exporters and producers who submit a separate-rate status application or certification and subsequently are selected as mandatory respondents, these exporters and producers will no longer be eligible for separate-rate status **UNLESS** they respond to all parts of the questionnaire as mandatory respondents.

Initiation of Reviews

In accordance with section 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings. We intend to issue the final results of these reviews not later than June 30, 2010. Also in accordance with 19 CFR 351.213(c), we are deferring for one year the initiation of the May 1, 2008 through April 30, 2009 administrative review of the antidumping duty order on Ball Bearings and Parts Thereof from Germany with respect to one exporter.

¹⁰ In the initiation notice that published on 06/24/2009 (74 FR 30052), we inadvertently overlooked GRW's request for deferral of initiation for the 2008-2009 administrative review. We hereby correct this oversight and are deferring the initiation of this review, pursuant to 19 CFR 351.213(c).

During any administrative review covering all or part of a period falling between the first and second or third

and fourth anniversary of the publication of an antidumping duty order under 19 CFR 351.211 or a

determination under 19 CFR 351.218(f)(4) to continue an order or suspended investigation (after sunset

United States*, 291 F.3d 806 (Fed. Cir. 2002), as appropriate, whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Estuarine Research Reserve System

AGENCY: Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of public comment period for the Revised Management Plan for the North Carolina National Estuarine Research Reserve.

SUMMARY: Notice is hereby given that the Estuarine Reserves Division, Office

of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce is announcing a thirty day public comment period on the North Carolina National Estuarine Research Reserve Management Plan Revision.

Four sites in coastal North Carolina comprise the North Carolina National Estuarine Research Reserve; Currituck Banks, Rachel Carson, Masonboro Island and Zeke's Island. Currituck Banks, Rachel Carson and Zeke's Island were designated in 1985, and Masonboro Island was designated in 1991, as the North Carolina National Estuarine Research Reserve pursuant to Section 315 of the Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1461. The reserve has been operating in partnership with the North Carolina Department of Environment and Natural Resources under a management plan approved in 1998. Pursuant to 15 CFR Section 921.33(c), a state must revise their management plan every five years. The submission of this plan fulfills this requirement and sets a course for successful implementation of the goals and objectives of the reserve. An increase in the vertical placement of the program on the state organizational chart, a new administrative facility, and updated programmatic objectives are notable revisions to the 1998 approved management plan.

The revised management plan outlines the administrative structure; the education, stewardship, and research goals of the reserve; and the plans for future land acquisition and facility development to support reserve operations. This management plan describes how the strengths of the reserve will focus on several areas relevant to coastal North Carolina, including coastal population increase, altered land use, storm water runoff and eutrophication, invasive species, tropical and coastal storm impacts and sea level rise.

Since 1998, the reserve has added a coastal training program that delivers science-based information to key decision makers in North Carolina; has completed a site profile that characterizes the reserve; and has expanded the monitoring, stewardship and education programs. A new administrative building (2007) has been built to support the growth of reserve programs.
