

222 of the Communications Act of 1934, as amended.

Total Annual Burden: 5 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting OMB approval of a new information collection. The Commission is reporting a program change increase of 60 respondents/responses and therefore, the total annual burden is estimated to be 5 total annual hours.

The FCC requires an owner or controller of a 911 or enhanced 911 capability to make that capability available to a requesting interconnected Voice Over Internet Protocol (VoIP) provider in certain circumstances. This requirement involves the collection and disclosure to emergency services personnel of customers' location information. In a previous action, the Commission required interconnected VoIP providers to collect certain location information from their customers and disclose it to the entities that own or control an Automatic Location Information (ALI) database. That OMB-approved requirement is under OMB Control Number 3060-1085. All the relevant costs of the entities that own or control an ALI database were previously described in 3060-1085. The Commission has calculated the paperwork burdens of this present item in such a way as to prevent double counting for OMB's inventory.

For more information regarding this new information collection, see 74 FR 31860 (July 6, 2009), available at <http://frwebtgate5.access.gpo.gov/cgi-bin/PDFgate.cgi?WAISdocID=594374209894+10+2+0&WAIAction=retrieve>.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
