Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.

Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Docket No. PF09–10–000]

Northwest Pipeline GP; Notice of Intent To Prepare an Environmental Impact Statement and Land and Resource Management Plan Amendment for the Planned Blue Bridge Pipeline Project and Request for Comments On Environmental Issues

July 28, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the planned Blue Bridge Pipeline Project involving construction and operation of facilities by Northwest Pipeline GP (Northwest) in Benton, Klickitat, Skamania, and Clark Counties, Washington. This EIS will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process that will be used to gather input from the public and interested agencies on the project. Your input will help the Commission staff and cooperating agencies determine which issues need to be evaluated in the EIS. Please note that the scoping period for this project will close on August 30, 2009.

Comments may be submitted in writing or verbally. Details on how to submit written comments are provided in the "Public Participation" section of this notice. In lieu of or in addition to sending written comments, you are invited to attend the two public scoping meetings to verbally comment on the

project. The dates and locations of the meetings are listed below and will be posted on the Commission's calendar at www.ferc.gov/EventCalendar/EventsList.aspx. All meetings are scheduled to begin at 7 p.m. Pacific Daylight Time.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties in this proceeding; and local libraries and newspapers.

The FERC is the lead federal agency for the preparation of the EIS. The U.S. Bureau of Land Management (BLM) is participating as a cooperating agency in the preparation of the EIS because the project would cross federally-administered lands in Washington. The U.S. Forest Service (USFS) is participating as a cooperating agency because the project would cross the Gifford Pinchot National Forest, the Columbia River Gorge National Scenic Area, and the Pacific Crest Trail in Washington. The U.S. Army Corps of Engineers (COE) is also participating as a cooperating agency.

The BLM has authority under the Mineral Leasing Act of 1920 (30 U.S.C. 185) for granting a right-of-way over all federal lands involved in the planned project. As a cooperating agency, the BLM intends to adopt the EIS per Title 40 of the Code of Federal Regulations, Part 1506.3, to meet its NEPA responsibilities for Northwest's application for a Right-of-Way Grant and Temporary Use Permit for the crossing of federally administered lands, including BLM lands, the Gifford Pinchot National Forest, the Columbia River Gorge National Scenic Area, the Pacific Crest Trail, and the Umatilla National Wildlife Refuge. The Umatilla National Wildlife Refuge is managed by the U.S. Fish and Wildlife Service (FWS). The concurrence or non-concurrence of the USFS and FWS would be considered in the BLM's decision, as well as impacts on resources and programs and the project's conformance with land use plans.

As planned, the Blue Bridge Pipeline project does not follow a designated
