

The proposed study has two primary purposes:

- To document and characterize the work/rest schedules and sleep patterns of train crews in commuter passenger service
- To examine the relationship between these schedules and level of alertness/fatigue for the individuals who work these schedules.

The intent is to report results in aggregate, not by railroad.

The study will seek to describe the work and sleep patterns for this group of railroad employees. It will also obtain subjective ratings from participants of their alertness/sleepiness on both work and non-work days. Data collection will be through the use of a daily diary or log as well as a brief background questionnaire for each participant. Analysis of the diary data will allow the FRA to assess whether or not there are any work-related fatigue issues. The proposed study will provide a defensible and definitive estimate of the work/rest cycle parameters and fatigue in this group of railroad employees that will inform FRA regulatory policy and action.

SUPPLEMENTARY INFORMATION:

Background

On August 24, 2006 we published a notice in the **Federal Register** (71 FR 50113) to announce changes in our AD and Special Airworthiness Information Bulletins (SAIB) printing and distribution policy. We also announced our intention to transition to full electronic distribution for ADs and notified the public that we would immediately stop mailing paper copies of SAIBs.

On March 1, 2007 we published a notice in the **Federal Register** (72 FR 9394) to announce our e-mail subscription service for ADs and SAIBs. The service, known as GovDelivery, was activated in May 2007 and is accessible from the Regulatory and Guidance Library (RGL) homepage at: <http://rgl.faa.gov>. The service is free of charge and allows any interested party to subscribe. Subscribers may choose to receive all published documents or only those pertaining to a specific product make and model. They also may choose to receive all published documents for

general categories such as ‘small airplane’ or ‘engine.’ The subscription service sends ADs and SAIBs to the e-mail address of each subscriber within minutes after publication in the RGL.

In September of 2007, the FAA stopped mailing paper copies of ADs and SAIBs to all owners and operators of transport airplanes and engines installed on transport airplanes.

Full Electronic Distribution

a. We will stop mailing paper copies of the remaining products according to the following schedule:

Product	Date
Transport rotorcraft and rotorcraft engines	October 1, 2009.
All other rotorcraft and rotorcraft engines	January 1, 2010.
All aircraft, engines, and propellers	March 1, 2010.

b. Owners and operators should use the following resources to obtain AD and SAIB information electronically:

(1) *Regulatory and Guidance Library (RGL) Web site: <http://rgl.faa.gov>.*

(2) **Federal Register** Web site: <http://www.gpoaccess.gov/fr/>

(3) *GovDelivery e-mail service*—ADs are automatically e-mailed to subscribers who sign-up through the RGL homepage.

c. For those people who might not have computer access or who still desire paper copies, the FAA will continue to provide the AD Biweekly, which is a paid subscription of all ADs issued in the **Federal Register** over the previous 2-week period. The AD Biweekly is printed and mailed by the Government Printing Office (GPO) and does not include SAIBs. Contact the GPO directly at phone: (202) 512-1806 to subscribe.

d. We will continue to fax and or mail paper copies of Emergency ADs until further notice.

Issued in Washington, DC, on July 30, 2009.
