Below is a brief summary of the proposed information collection:

Title of Collection: Section 1512 Data Standards.

OMB Control No.: 0430-0001.

Description: The American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5, 123 Stat. 115 (2009)) (the Recovery Act) established the Board and required that the Board establish and maintain a public-facing website to track covered funds. Section 1512 of the Recovery Act requires recipients of Federal financial assistance—namely, grants, cooperative agreements, contracts and loans—to report on the use of funds. These reports are to be submitted to FederalReporting.gov, and certain information from these reports will later be posted on the public-facing Web site Recovery.gov. More specifically, as set forth in OMB's June 22, 2009, Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009 (OMB Guidance):

Prime Recipients: The prime recipient is ultimately responsible for the reporting of all data required by section 1512 of the Recovery Act and the OMB Guidance, including the Federal Funding Accountability and Transparency Act (FFATA) data elements for the sub-recipients of the prime recipient required under section 1512(c)(4). In addition, the prime recipient must report three additional data elements associated with any vendors receiving funds from the prime recipient for any payments greater than \$25,000. Specifically, the prime recipient must report the identity of the vendor by reporting the DUNS number, the amount of the payment, and a description of what was obtained in exchange for the payment. If the vendor does not have a DUNS number, then the name and zip code of the vendor's headquarters will be used for identification.

Sub-Recipients of the Prime Recipient: The sub-recipients of the prime recipient may be required by the prime recipient to report the FFATA data elements required under section 1512(c)(4) for payments from the prime recipient to the sub-recipient. The reporting sub-recipients must also report one data element associated with any vendors receiving funds from that sub-recipient. Specifically, the sub-recipient must report, for any payments greater than \$25,000, the identity of the

vendor by reporting the DUNS number, if available, or otherwise the name and zip code of the vendor's headquarters.

SUPPLEMENTARY INFORMATION: *Title:* Irradiation Phytosanitary Treatment of Imported Fruits and Vegetables.

OMB Number: 0579-0155.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) is authorized, among other things, to regulate the importation of plants, plant products, including fruits and vegetables, and other articles to prevent the introduction of plant pests and noxious weeds into the United States.

Regulations governing the importation of fruits and vegetables are set out in 7 CFR part 319. In accordance with the regulations, some fruits and vegetables from certain regions of the world must be treated for insect pests in order to be eligible for entry into the United States.

The regulations in 7 CFR part 305 provide for the use of irradiation as a phytosanitary treatment for fruits and vegetables imported into the United States. The irradiation treatment provides protection against all insect pests including fruit flies, the mango seed weevil, and others. It may be used as an alternative to other approved treatments for these pests in fruits and vegetables, such as fumigation, cold treatment, heat treatment, and other techniques.

The regulations concerning irradiation treatment involve the collection of information, including a compliance agreement, 24-hour notification, labeling, dosimetry recordings, requests for dosimetry device approval, requests for facility approval, trust fund agreement, and annual work plan, as well as recordkeeping.

We are asking the Office of Management and Budget (OMB) to approve our use of these information

collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0015369 hours per response.

Respondents: Foreign plant protection services, irradiation facility personnel, importers.

Estimated annual number of respondents: 93.

Estimated annual number of responses per respondent: 433.76344.

Estimated annual number of responses: 40,340.

Estimated total annual burden on respondents: 62 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 3rd day of August 2009.

William H. Clay,

Acting Administrator, Animal and Plant Health Inspection Service.
