

which a group of cattle is assembled for export to the United States. This information is necessary to allow APHIS to ensure that the cattle to be imported are free of tuberculosis, thereby protecting the health of U.S. livestock.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.8258331 hours per response.

Respondents: Officials of the national government of regions from which the cattle originate and salaried veterinary officials of exporting regions.

Estimated annual number of respondents: 80,075.

Estimated annual number of responses per respondent: 1.253512.

Estimated annual number of responses: 100,375.

Estimated total annual burden on respondents: 82,893 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 5th day of August 2009.

William H. Clay,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fruits and Vegetables.

OMB Number: 0579-0316.

Type of Request: Revision and extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS). APHIS regulations authorized by the PPA concerning the importation of fruits and vegetables are contained in "Subpart—Fruits and Vegetables" (319.56-1 through 319.56-49).

Under these regulations, certain fruits and vegetables may be imported into the United States under specific conditions to prevent the introduction of plant pests into the United States. These conditions involve the use of information collection activities, including the issuance of permits and phytosanitary certificates, trapping surveys, labeling of boxes, and recordkeeping.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

This information collection includes information collection requirements currently approved by OMB control numbers 0579-0293, "Revision of Fruits and Vegetables Import Regulations," and 0579-0316, "Importation of Fruits and Vegetables." After OMB approves and combines the burden for both collections under a single collection (0579-0316), the Department will retire number 0579-0293.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning this information collection activity. These comments will help us:

(1) Evaluate whether the information collection is necessary for the proper performance of our agency's functions, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.5103216 hours per response.

Respondents: Importers, exporters, and foreign national plant protection organizations.

Estimated annual number of respondents: 2,959.

Estimated annual number of responses per respondent: 27.748901.

Estimated annual number of responses: 82,109.

Estimated total annual burden on respondents: 124,011 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 5th day of August 2009.

SUPPLEMENTARY INFORMATION:

Title: Importation of Products of Poultry and Birds.

OMB Number: 0579-0141.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is authorized, among other things, to prohibit or restrict the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of livestock diseases and pests. To carry out this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9, parts 92 through 98, of the Code of Federal Regulations.

Part 94, § 94.6, governs the importation of carcasses, parts or products of carcasses, and eggs (other than hatching eggs) of poultry, game birds, and other birds to prevent the introduction of exotic Newcastle disease (END) and highly pathogenic avian influenza subtype H5N1 into the United States. Various conditions for importation apply.

These conditions include four information collection activities: (1) A certificate of origin that must be issued, (2) serial numbers that must be recorded, (3) records that must be maintained, and (4) cooperative service agreements that must be signed.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.14285 hours per response.
