Background and Purpose: The MLC, 2006, was adopted by the International Labour Conference of the International

Labour Organization (ILO) in February 2006. It sets out seafarers' rights to decent conditions of work and helps to create conditions of fair competition for shipowners. The MLC, 2006, has been designed to become the "fourth pillar" of the international regulatory regime for quality shipping complementing the key conventions of the International Maritime Organization (IMO), such as the International Convention for the Safety of Life at Sea, 1974, as amended (SOLAS), the International Convention on Standards of Training, Certification and Watchkeeping, 1978, as amended (STCW), and the International Convention for the Prevention of Pollution from Ships, 73/78 (MARPOL). The MLC, 2006, contains a comprehensive set of global standards, based on those that are already found in 68 maritime labour instruments adopted by the ILO since 1920.

Meeting Agenda: The purpose of this meeting is to provide the industry with an overview of the MLC, 2006, and to help clarify areas that may require additional interpretation. This meeting is strictly informational and it is not meant to discuss the merits of ratification of the MLC, 2006. The tentative agenda of the meeting is:

- Introduction to the MLC, 2006;
- Seafarer's perspective;
- Shipowner's perspective;
- Overview of the MLC, 2006;
- United States Process for ratification.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection is associated with regulations

implementing the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 et seq.). Under the MBTA, it is unlawful to take, possess, import, export, transport, sell, purchase, barter, or offer for sale, purchase, or barter, migratory birds or their parts, nests, or eggs, except as authorized by regulations implementing the MBTA.

The regulations at 50 CFR 21.47 (Aquaculture Depredation Order) authorize aquaculture producers in 13 States to take double-crested cormorants when the birds are found committing or about to commit depredations on commercial freshwater aquaculture stocks. The regulations at 50 CFR 21.48 (Public Resource Depredation Order) authorize State fish and wildlife agencies, the U.S. Department of Agriculture (APHIS-Wildlife Services), and federally recognized tribes in 24 States to take double-crested cormorants to prevent depredations on the public resources of fish, wildlife, plants, and their habitats.

Both 50 CFR 21.47 and 21.48 impose reporting and recordkeeping requirements on those operating under the depredation orders. We use the information collected to:

- (1) Help assess the impact of the depredation orders on double-crested cormorant populations.
- (2) Protect nontarget migratory birds or other species.
- (3) Ensure that agencies and individuals are conforming to the terms, conditions, and purpose of the orders.
- (4) Help gauge the effectiveness of the orders at mitigating cormorant-related damages.
