

of 1977 (CRA), 12 U.S.C. 2901, *et seq.*, and record of lending to first-time homebuyers. 12 U.S.C. 1430(g)(2). 12 CFR part 944 implements section 10(g) of the Bank Act. See 12 CFR part 944. The rule provides uniform community support standards all Bank members must meet and review criteria FHFA staff must apply to determine compliance with section 10(g). More specifically, § 944.2 of the rule (12 CFR 944.2) implements the statutory community support requirement and requires each member selected for review to submit a completed Community Support Statement Form to the FHFA. The community support standards for the two statutory factors are found in § 944.3 (12 CFR 944.3)—CRA and first-time homebuyer performance—this provision also provides guidance to a respondent on how it may satisfy the standards. The procedures and criteria FHFA uses in determining whether Bank members satisfy the statutory and regulatory community support requirements are found in §§ 944.4 and 944.5 (12 CFR 944.4 through 944.5).

The information collection contained in the Community Support Statement Form and §§ 944.2 through 944.5 of the rule are necessary to enable and are used by the FHFA to determine whether Bank members satisfy the statutory and regulatory community support requirements. Only Bank members that meet these requirements may maintain continued access to long-term Bank advances. See 12 U.S.C. 1430(g).

The OMB number for the information collection is 2590-0005. The OMB clearance for the information collection expires on September 30, 2009. The likely respondents are institutions that are Bank members.

B. Burden Estimate

The FHFA estimates the total annual average number of respondents at 4100 Bank members, with 1 response per member. The estimate for the average hours per response is one hour. The estimate for the total annual hour burden is 4100 hours (4100 members × 1 response per member × 1 hour).

C. Comment Request

The FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) The accuracy of the FHFA estimates of the burdens of the collection of information; (3) Ways to enhance the quality, utility and clarity of the information collected; and (4) Ways to minimize the burden of

the collection of information, including through the use of automated collection techniques or other forms of information technology.

Office of the Secretary

Findings of Research Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) and the Assistant Secretary for Health have taken final action in the following case:

Ryan M. Wolfort, M.D., Ph.D., Louisiana State University Health Sciences Center—Shreveport: Based on the report of an investigation conducted by Louisiana State University Health Sciences Center—Shreveport (LSUHSC-S) and additional analysis conducted by ORI in its oversight review, the U.S. Public Health Service (PHS) found that Dr. Ryan M. Wolfort, who was a House Officer in the Department of Surgery, and a former graduate student, Department of Molecular and Cellular Physiology, LSUHSC-S, engaged in research misconduct in the reporting of research supported by National Heart, Lung, and Blood Institute (NHLBI), National Institutes of Health (NIH), grants R01 HL26441 and P01 HL55552.

Respondent's research misconduct related to his dissertation research as a graduate student, which he undertook at the same time that he also was serving as a House Officer at LSUHSC-S. ORI acknowledges Dr. Wolfort's cooperation with the LSUHSC-S misconduct proceedings.

PHS found that Dr. Wolfort engaged in research misconduct by falsifying and fabricating data reported in three publications¹ and one manuscript² that had been submitted for publication, reviewed, and returned for revision. Specifically, Dr. Wolfort falsified and fabricated data reported in research examining the contribution of immune mechanisms to early oxidative stress and endothelial dysfunction in mice with induced dietary hypercholesterolemia by:

1. Admittedly fabricating tabulations and the associated statistical analyses of RT-PCR data on Nox-2 mRNA expression in the three publications and the manuscript;

2. Falsifying data and the associated statistical claims, specifically by (a) Admittedly falsifying the measurements of endothelial function by myographic recordings of aortic ring dilation in reaction to vasoactive substances in the three papers and manuscript, (b) admittedly falsifying the measurement of cytokine by cytometric bead assay in paper 3, and (c) falsifying the measurement of superoxide production by cytochrome c reduction in papers 1 and 2, for which the underlying spreadsheet data the Respondent claims were unintentionally misrepresented, massaged, and improperly collated, but for which Respondent acknowledges that the raw data were missing for all three papers, admittedly because he intentionally erased files and discarded notebooks.

Dr. Wolfort has entered into a Voluntary Exclusion Agreement in which he has voluntarily agreed, for a period of two (2) years, beginning on July 13, 2009:
