Abstract: The New Teacher Longitudinal Survey will follow a sample of public school teachers who were in their first year of teaching in 2007–08. These teachers were first interviewed as part of the 2007–08 Schools and Staffing Survey (SASS) and were also part of the 2008–09 Teacher Follow-up Survey. They will be contacted again in 2010 as part of a second follow-up. Following this small subset of the SASS sample for at least a decade will provide much needed data on teachers' careers, attrition, and mobility.
