

(iii) Inspect and test the hoist system as specified by 29 CFR 1926.552(c)(15).

(b) The employers must comply with the accident prevention requirements of 29 CFR 1926.20(b)(3).

16. Welding

(a) The employers must use only qualified welders to weld components of the hoisting system.

(b) The employers must ensure that the qualified welders:

(i) Are familiar with the weld grades, types, and materials specified in the design of the system; and

(ii) Perform the welding tasks in accordance with 29 CFR 1926, subpart J ("Welding and Cutting").

Appendix A

Nonmandatory Conditions When Performing Chimney Construction Using Hoist Systems

OSHA strongly encourages the employers to implement the following additional conditions under this order:

1. *Fall hazards.* The employers should install attachment points inside personnel cages for securing fall-arrest systems, and ensure that workers using personnel cages secure their fall-arrest systems to these attachment points.

2. *Shearing hazards.* The employers should:

(a) Provide workers who use personnel platforms or boatswain's chairs with instruction on the shearing hazards posed by the hoist system (e.g., work platforms, scaffolds), and the need to keep their limbs or other body parts clear of these hazards during hoisting operations;

(b) Provide the instruction on shearing hazards:

(i) Before a worker uses a personnel platform or boatswain's chair at the worksite; and

(ii) Periodically, and as necessary, thereafter, including whenever a worker demonstrates a lack of knowledge about the hazard or how to avoid the hazard, a modification occurs to an existing shearing hazard, or a new shearing hazard develops at the worksite; and

(c) Attach a readily visible warning to each personnel platform and boatswain's chair notifying workers, in a language the workers understand, of potential shearing hazards they may encounter during hoisting operations, and that uses the following (or equivalent) wording:

(i) For personnel platforms: "Warning—To avoid serious injury, keep your hands, arms, feet, legs, and other parts of your body inside this platform while it is in motion"; and

(ii) For boatswain's chairs: "Warning—To avoid serious injury, do not extend your hands, arms, feet, legs, or other parts your body from the side or to the front of this chair while it is in motion."

3. *Safety zone.* The employers should:

(a) Establish a clearly designated safety zone around the bottom landing of the hoist system; and

(b) Prohibit any worker from entering the safety zone except to access a personnel- or material-transport device, and then only when the device is at the bottom landing and not in operation (i.e., when the drive components of the hoist machine are disengaged and the braking mechanism is properly applied).

4. *OSHA notification.* The employers should:

(a) At least 15 calendar days prior to commencing any chimney construction operation using the conditions specified herein, notify the OSHA Area Office nearest to the worksite, or the appropriate State-Plan Office, of the operation, including the location of the operation and the date the operation will commence;

(b) Inform OSHA national headquarters as soon as it has knowledge that it will:

(i) Cease to do business; or

(ii) Transfer the activities covered by this permanent variance to a successor company.

SUPPLEMENTARY INFORMATION:

- I. Introduction
- II. Notice of Filing
- III. Ordering Paragraphs

I. Introduction

On August 7, 2009, the Postal Service filed a notice announcing that it has entered into an additional Global Expedited Package Services 1 (GEPS 1) contract.¹ GEPS 1 provides volume-based incentives for mailers that send large volumes of Express Mail International (EMI) and/or Priority Mail International (PMI). The Postal Service believes the instant contract is functionally equivalent to previously submitted GEPS 1 contracts, and is supported by the Governors' Decision filed in Docket No. CP2008-4.² Notice at 1. It further notes that in Order No. 86, which established GEPS 1 as a product, the Commission held that additional contracts may be included as part of the GEPS 1 product if they meet the requirements of 39 U.S.C. 3633, and if they are functionally equivalent to previously submitted GEPS 1 contracts.³ Notice at 1-2.

The instant contract. The Postal Service filed the instant contract pursuant to 39 CFR 3015.5. In addition, the Postal Service contends that the contract is in accordance with Order No. 86. It filed an application for non-public treatment of materials to maintain the contract and supporting documents under seal as Attachment 1 to the Notice. *Id.*, Attachment 1.

The Notice also includes, as Attachment 2, a redacted copy of
