

activities are requested. Potential users must request and receive permission to view the BioSense Application. Federal rules mandate that this permission be

renewed each year. We estimate about 800 users per year will need to request new or continued access to the BioSense Application.

There is no cost to respondents other than their time. The total estimated annual burden hours are 147 hours.

**SUPPLEMENTARY INFORMATION:**

**Proposed Project**

**2010-2011 Medical Expenditure Panel Survey Insurance Component**

AHRQ seeks to renew the Medical Expenditure Panel Survey Insurance Component (MEPS-IC) for calendar years 2010 and 2011. The MEPS-IC, an annual survey of the characteristics of employer-sponsored health insurance, was first conducted by AHRQ in 1997 for the calendar year 1996. The survey has since been conducted annually for calendar years 1996 through 2009, except for 2007. A change from prior year collection to calendar year collection in 2008 meant that no data were collected for the 2007 calendar year, but the change has allowed for much earlier release of the survey results for the 2008 calendar year forward. AHRQ is authorized to conduct the MEPS-IC pursuant to 42 U.S.C. 299b-2.

Employment-based health insurance is the source of coverage for over 90 million workers and their family members, and is a cornerstone of the current U.S. health care system. The MEPS-IC measures the extent, cost, and coverage of employment-based health
