I. Funding Opportunity Description

This solicitation is issued pursuant to the Omnibus Appropriations Act, 2009 (Pub. L. 111-8) directing funds "for a cooperative research agreement with a qualified academic institution to conduct research on the national economic impact of all types of cooperatives." The Secretary of Agriculture has delegated the program's administration to USDA Rural Development.

The primary objective of this cooperative research agreement program is to facilitate university research on the national economic impact of cooperatives. This cooperative research agreement is a continuation of research conducted in USDA Rural Development cooperative research agreements RD-06-01, RBS-07-31 and RBS-08-00. As further described below, data generated and results produced in cooperative research agreements RD-06-01, RBS 07-31 and RBS-08-00 will be accessible to the institution awarded this cooperative research agreement. Existing Web-based methodologies will be used to enable cooperatives to enter financial and other impact data on a periodic basis; apply the methodology to collect data updates estimates of economic impact of cooperatives; analyze the impact of cooperatives on local wealth creation and retention, and analyze the total returns to investment in cooperatives. Methodologies will need to account for cooperative organizational complexity, such as a single organization's several local, regional, and national locations, as well as sector differences.

The cooperative agreement proposal must address specifically, and in detail sufficient to assess the effectiveness of proposed work, how the following deliverables will be provided:

1. An analysis of how and the extent to which cooperatives facilitate the

creation and retention of wealth within the local communities they serve. The analysis should include the identification of cooperative models and practices that could enhance cooperative contribution to local wealth creation. The University of Wisconsin has completed the first phase of the multi-year projects by producing estimates of wealth creation by cooperatives by using standard methods of estimation of business economic impact for the U.S. and for each of the following four sectors: commercial sales and marketing, social and public services, financial services, and utilities, and estimated for each of the seventeen subsectors. These results are published on the Web (<http://www.rurdev.usda.gov/rbs/coops/reic.htm>) and specific collaboration with the University of Wisconsin is expected in making further use of this database.

2. An analysis of the total returns to investment in cooperatives, including returns to the cooperative businesses at the enterprise level as well as the impact of cooperative returns and services to the cooperatives' members at their enterprise levels. Total returns to investment should be analyzed using the same classification scheme as reported in Deliverable #1 above.

3. Further development of sound methodologies and their application to newly-generated data for identifying and measuring the economic impacts of cooperatives as to the following:

i. Local, State, and regional significance and impact analysis using appropriate input-output, social accounting matrix, and multiplier tools;

ii. Differential economic impacts of cooperatives as compared to other types of organizations performing the same general functions, including but not limited to (a) the differential impacts of local ownership versus ownership from outside the region and (b) any special economic impacts generated by the patron-oriented characteristics of cooperative businesses;

iii. Whether a non-cooperative business enterprise would exist in the local or regional economy if the cooperative did not exist;

iv. Displacement or replacement of other businesses by cooperatives;

v. Departure of a cooperative including a cooperative's replacement by another type of business;

vi. Impact on local, regional, and national tax generation and on infrastructure.

vii. Cross sector analysis of cooperative governance, financial and operating best practices;

viii. Opportunities for cooperatives from different sectors to form working relationships.

4. USDA Rural Development will arrange for the winner of this competition to obtain updates and preliminary data from the University of Wisconsin, the FY 2006, FY 2007 and FY 2008 award recipient, as further progress is made on the FY 2006, FY 2007 and FY 2008 research. Data available to the FY 2009 award recipient will include:

- i. Number and headquarters location of cooperatives,
 - ii. Volume measures appropriate for each sector (revenues, dollar value, and other appropriate size indicators),
 - iii. Number of persons impacted by the cooperative (members, patrons, or investors), and
 - iv. Number of full-time equivalent jobs and other economic impact variables.
- v. Cooperative data will be identified using the North American Industry Classification System (NAICS).

5. Economic impact analyses as described in deliverables 3 and 4 above to be conducted on a sector basis. Sectors to be analyzed include:

- i. Housing,
- ii. Health care,
- iii. Daycare/elder care,
- iv. Financial services,
- v. Grocery/consumer retail,
- vi. Business-to-business (wholesaling, manufacturing),
- vii. Agricultural marketing (including organic and conventional),
- viii. Agricultural supplies and services,
- ix. Public services (including transportation and education),
- x. Renewable energy, and
- xi. Utilities.

6. The population of a database for individual cooperative and summary data collected and additional data generated as necessary to obtain economic impacts as described in deliverables 3 and 4 above. The database is to be delivered to USDA Rural Development. USDA Rural Development will work with the grantee to integrate data from this deliverable into existing database applications.

7. The performance of subcontracting services, oversight, and financial controls for the overall project.

8. The submission of quarterly progress reports and quarterly financial reports to USDA Rural Development; and

9. The preparation and submission of publishable quality written reports for Deliverables 1 through 5 to USDA Rural Development.

USDA Rural Development will competitively award one cooperative

agreement to fund the collection and analysis of data to determine the national economic impact of cooperatives. An institution of higher education may collaborate with others on the research and data collection. A formal consortium of academic institutions is allowed.

Approximate Number of Awards: 1.

Approximate Average Award: \$300,000.

Floor of Award Range: None.

Ceiling of Award Range: \$300,000.

Anticipated Award Date: September 25, 2009.

Budget Period Length: 12 months.

Project Period Length: 12 months.

III. Eligibility Information

A. Eligible Applicants

Applicants must be institutions of higher education. Proposals may be submitted by public or private colleges or universities, research foundations maintained by a college or university, or private nonprofit organizations funded by a group of colleges or universities.

B. Cost Sharing or Matching

Matching funds are not required but are highly encouraged. Applicants must verify in their applications that matching funds are available for the time period of the agreement if the matching funds are required to complete the project. Matching funds must be provided by either the applicant or by a third party in the form of cash or in-kind contributions. Matching funds must be spent on eligible expenses and must be from eligible sources.

C. Other Eligibility Requirements

Indirect Cost Eligibility: Public Law 111-8, "Omnibus Appropriations Act, 2009" continues the provision which states "No funds appropriated by this Act may be used to pay negotiated indirect cost rates on cooperative agreements or similar arrangements between the United States Department of Agriculture and nonprofit institutions in excess of 10 percent of the total direct cost of the agreement when the purpose of such cooperative arrangements is to carry out programs of mutual interest between the two parties." Indirect costs

in excess of 10 percent of the direct cost, therefore, will be ineligible for funding.

Activity Eligibility: A cooperative agreement reflects a relationship between the United States Government and an eligible recipient where the principal purpose of the relationship is the transfer of money, property, services, or anything of value to the eligible recipient to carry out the desired research; and substantial involvement is anticipated between USDA Rural Development acting for the United States Government and the eligible recipient during the performance of the research in the agreement. A cooperative agreement is not a grant. *Therefore, the project proposed must include a description of USDA Rural Development's substantial participation.* USDA Rural Development may subsequently negotiate the nature of its participation before the cooperative agreement is executed.

Applicants that propose budgets that include more than 10 percent of total project costs that are ineligible for the program will be ineligible, and the application will not be considered for funding. However, if an application with 10 percent or less of ineligible costs is selected for funding, all ineligible costs must be removed from the project and replaced with eligible activities or the amount of the award will be reduced accordingly.

Cooperative Agreement Period Eligibility: Applications that have a timeframe of more than 12 months will be considered ineligible and will not be considered for funding. Applications that request funds for a time period ending after September 30, 2010, will not be considered for funding.

Completeness Eligibility: Applications without sufficient information to determine eligibility will not be considered for funding. Applications that are missing any required elements (in whole or in part) will not be considered for funding.

8. *Proposal Narrative*. The narrative must include the following information:

i. *Project Title*. The title of the proposed project must be brief, not to exceed 75 characters, yet describe the essentials of the project. It should match the project title submitted on the SF-424. The project title does not need to appear on a separate page. It can be included on the title page and/or on the information sheet.

iv. *Workplan*. The narrative must contain a description of the project and set forth the tasks involved in reasonable detail. The description should specify the activity, who will

perform the activity, during what timeframe the activity will take place, and the cost of the activity. Please note that one of the proposal evaluation criteria evaluates the workplan and budget. Applicants should only submit the workplan and budget once, either in this section or as part of the workplan/budget evaluation criterion discussion.

v. *Proposal Evaluation Criteria*. Each of the proposal evaluation criteria referenced in this funding announcement must be addressed, specifically and individually, in narrative form.

9. *Certification of Judgment*.

It is suggested that applicants use the following language for the certification. "[INSERT NAME OF APPLICANT] certifies that the United States has not obtained a judgment against it." A separate signature is not required.

10. *Verification of Matching Funds*.

Matching funds are not required but are highly encouraged. If matching funds are provided, applicants must provide a budget to support the workplan showing all sources and uses of funds during the project period. Applicants will be required to verify any and all matching funds, both cash and in-kind. All proposed matching funds must be specifically documented in the application. If the matching funds are to be provided by an in-kind contribution from the applicant, the application must include a signed letter from an authorized representative of the applicant verifying the goods or services to be donated, when the goods and services will be donated, and the value of the goods or services. Applicants should note that only goods or services for which no expenditure is made can be considered in-kind. If the applicant is paying for goods and services as part of the matching funds contribution, the expenditure is considered a cash match, and should be verified as such. If the matching funds are to be provided by a third party in cash, the application must include a signed letter from that third party verifying how much cash will be donated and when it will be donated. Verification of funds donated outside the proposed time period of the cooperative agreement will not be accepted. If the matching funds are to be provided by a third party in-kind donation, the application must include a signed letter from the third party verifying the goods or services to be donated, when the goods and services will be donated, and the value of the

goods or services. Verification of in-kind contributions donated outside the proposed time period of the cooperative agreement will not be accepted. Verification of in-kind contributions that are over-valued will not be accepted. The valuation process for the in-kind funds does not need to be included in the application, especially if it is lengthy, but the applicant must be able to demonstrate how the valuation was achieved at the time of notification of tentative selection for the award. If the applicant cannot satisfactorily demonstrate how the valuation was determined, the award may not be made.

If matching funds are in cash, they must be spent on goods and services that are eligible expenditures for this cooperative agreement program. If matching funds are in-kind contributions, the donated goods or services must be considered eligible expenditures for this program. The matching funds must be spent or donated during the agreement period. (See 7 CFR parts 3015 and 3019 for funds use eligibility rules.)

If acceptable verification for all proposed matching funds is missing from the application by the application deadline, the application will receive zero points for the Funding Match part of the evaluation criteria.
