Win On, Inc., Brooklyn, NY; Notice of Termination of Investigation

Pursuant to Section 223 of the Trade Act of 1974, as amended, an investigation was initiated on June 30, 2009 in response to a worker petition filed by on behalf of workers of Win On, Inc., Brooklyn, New York.

Petitions filed by a group of adversely affected workers must be filed by at least three workers within one year of worker separations. The investigation revealed that two of the petitioners were separated more than one year prior to the date of petition. Consequently, the petition has been deemed invalid, and the investigation has been terminated.

Signed at Washington, DC, this 30th day of July 2009.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

Newton Transportation Company, Inc., Hudson, NC; Notice of Termination of Investigation

Pursuant to Section 223 of the Trade Act of 1974, as amended, an investigation was initiated in response to a petition filed on July 7, 2009 by two company officials on behalf of workers of Newton Transportation Company, Inc., Hudson, North Carolina.

The petitioning group of workers is covered by an earlier petition (TA-W-71,531) filed on July 2, 2009 that is the subject of an ongoing investigation for which a determination has not yet been issued. Further investigation in this case would duplicate efforts and serve no purpose; therefore the investigation under this petition has been terminated.

Signed at Washington, DC, this 27th day of July 2009.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**Notice of Centennial Challenges**

AGENCY: National Aeronautics and Space Administration (NASA).

Notice: (09-075).

ACTION: Notice of Centennial Challenges: 2009 Regolith Excavation Challenge.

SUMMARY: This notice is issued in accordance with 42 U.S.C. 2459f-1(d). The 2009 Regolith Excavation Challenge is now scheduled and teams that wish to compete may now register. The NASA Centennial Challenges is a program of prize contests to stimulate innovation and competition in technologies of interest and value to NASA and the nation. The Regolith Excavation Challenge promotes the development of new methods and technologies to excavate lunar regolith (lunar dirt). Excavation is a necessary step towards lunar resource utilization. The unique physical properties of lunar regolith make excavation an extremely difficult technical challenge. To qualify to win a prize, teams competing in the 2009 Regolith Excavation Challenge must build tele-robotic and/or autonomously operating systems that will excavate simulated lunar regolith and deliver it to a collector.
