Submission for OMB Review; Comment Request

Title: Summary Data Component, National Child Abuse and Neglect Data System (NCANDS).

OMB No.: 0980-0229.

Description: The Child Abuse and Neglect Treatment Act (42 U.S.C. 5101 et seq.) as amended requires States to annually work with the Secretary to

provide to the maximum extent practical, a report that includes 12 data items listed in the statute. The National Child Abuse and Neglect Data System (NCANDS), administered by the Children's Bureau, meets this reporting requirement. In addition, the amendments of 1988 require that the data system shall be universal and case specific and integrated with other case-based foster care and adoption data collected by the Secretary. There are two data components, the Detailed Case Data Component (DCDC), which includes the case-level data submitted through the Child File and some aggregated data submitted through the Agency File, and the Summary Data component (SC), which is used by States that cannot submit case-level data. No changes are being requested. The Summary Data Component will be phased out over the next few years as the number of States that can complete the Child File increases.

Respondents: State Child Welfare Agencies.
