Nature and Extent of Confidentiality:

Needs and Uses: The Commission will submit this new information collection (IC) to the OMB under their emergency processing provisions in 5 CFR 1320.13. The Commission is requesting OMB approval by September 8, 2009 so that the information will be available for Commission use during the latter half (and most severe period) of the hurricane season.

The Public Safety and Homeland Security Bureau (PSHSB) of the Federal Communications Commission enhanced the existing Universal Service Licensing System (ULS) to collect operational point of contact information from public safety and non-public safety licensees designated as emergency first responders responsible for coordinating with state, county and local authorities during times of emergency. The process of procuring and maintaining spectrum using the ULS remains intact and requires no additional training for licensees to participate in this voluntary collection. This enhancement to ULS to collect operational point of contact information will enable Commission staff to more effectively provide immediate assistance and outreach to licensees during times of emergency. Using this information, the Bureau will be able to coordinate among licensees in given geographic areas to make more wireless radio service available to emergency first responders and emergency operations.

Public safety licensees and non-public safety licensees designated as emergency first responders operating pursuant to Part 90 of the Commission's rules should identify the following information regarding the operational point of contact for the licensee directly responsible for coordinating with the state, county, and/or local emergency authorities. They will enter the following information in the ULS system:

- (1) Name and title;
- (2) Office telephone number;
- (3) Mobile telephone number, and

(4) E-mail address.

Once the emergency request is approved by OMB, the Bureau will issue a Public Notice with step-by-step instructions on how to use the enhanced features made available to licensees to provide this information.

Federal Communications Commission.

William F. Caton,

Deputy Secretary.
