ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-586-8008).

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On October 26, 2004, the Department of Energy (DOE) issued Order No. EA-295 authorizing MLCI to transmit electric energy from the United States to Canada as a power marketer using international transmission facilities located at the United States border with Canada. That Order will expire on October 26, 2009. On August 17, 2009, MLCI filed an application with DOE to renew the export authority contained in Order No. EA-295 for an additional five-year term.

The electric energy which MLCI proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by MLCI has previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by e-mailing Odessa.Hopkins@hq.doe.gov.
