Forest Service

Southwestern Region, Arizona, New Mexico, West Texas and Oklahoma: Proposed Invasive Plant Control Project, Carson National Forest, Portions of Rio Arriba, Mora, Taos, and Colfax Counties; and Santa Fe National Forest, Portions of Rio Arriba, Los Alamos, Sandoval, San Miguel, and Mora Counties, New Mexico

AGENCY: Forest Service, USDA.

ACTION: Notice; correction.

SUMMARY: On December 15, 2000, the USDA Forest Service published a notice of intent (65 FR 78464-78465) to prepare an environmental impact statement (EIS) for a proposed invasive plant control project on the Carson and Santa Fe national forests. A draft EIS was completed and the Environmental Protection Agency (EPA) published a notice of availability (NOA) in the **Federal Register** on July 16, 2004 (69 FR 42722). A NOA for the final EIS was published in the **Federal Register** on November 18, 2005 (70 FR 69967).

Due to significant new information relevant to environmental concerns and

bearing on the proposed action and its impacts, the Carson and Santa Fe national forests are jointly preparing a supplemental environmental impact statement (SEIS) for the invasive plant control project on National Forest System lands within the boundaries of the two national forests. The proposed action would control invasive plant populations on both national forests by using one or a combination of integrated pest management methods, including mechanical, chemical, biological, and cultural treatments.

DATES: *Revised Dates:* The anticipated date for completion and distribution of the draft SEIS is the end of December 2009. A 45-day comment period will follow issuance of the draft SEIS. The final SEIS is estimated to be released in April 2010.

SUPPLEMENTARY INFORMATION:

Authority: The CAFTA-DR Agreement; Section 203(o)(4) of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act (CAFTA-DR Implementation Act), Pub. Law 109-53; the Statement of Administrative Action (SAA), accompanying the CAFTA-DR Implementation Act; and Presidential Proclamations 7987 (February 28, 2006) and 7996 (March 31, 2006); Modifications to Procedures for Considering Requests Under the Commercial Availability Provision of the Dominican Republic-Central America-United States Free Trade Agreement, 73 FR 53200 (Sept. 15, 2008) ("procedures").

BACKGROUND:

The CAFTA-DR Agreement provides a list in Annex 3.25 for fabrics, yarns, and fibers that the Parties to the CAFTA-DR Agreement have determined are not available in commercial quantities in a timely manner in the territory of any Party. The CAFTA-DR Agreement provides that this list may be modified pursuant to Article 3.25(4)-(5), when the President of the United States determines that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the territory of any Party. See Annex 3.25 of the CAFTA-DR Agreement; see also section 203(o)(4)(C) of the CAFTA-DR Implementation Act.

The CAFTA-DR Implementation Act requires the President to establish procedures governing the submission of a request and providing opportunity for interested entities to submit comments and supporting evidence before a commercial availability determination is made. In Presidential Proclamations 7987 and 7996, the President delegated to CITA the authority under section 203(o)(4) of CAFTA-DR Implementation Act for modifying the Annex 3.25 list. Pursuant to this authority, on September 15, 2008, CITA published modified procedures it would follow in considering requests to modify the Annex 3.25 list of products determined to be not commercially available in the territory of any Party to CAFTA-DR. See CITA procedures.

On August 10, 2009, the Chairman of CITA received a Request for a Commercial Availability Determination ("Request") from Sorini Samet & Associates, LLC, on behalf of BWA, for certain woven modal-polyester apparel fabric, as specified below. On August 11, 2009, in accordance with CITA's procedures, CITA notified interested parties of the Request, which was posted on the dedicated website for CAFTA-DR Commercial Availability
